HIGH DENSITY

DATA CENTER Challenge

Data Centers have evolved as a secure storage place for the rapidly expanding volume of information a company needs to function.

The dramatic growth of "IT Dependency" in all businesses has increased significantly demand for Data Centers all over the world.

Guidelines to design, build and operate a Data Center are provided by different standards' for different products and services. Some commonly Data Center standards are formed by organisations such as ASHREA, CENELEC, ISO/IEC, TIA, BICSI, UPTIME, IEEE, NEB.

Today's real challenges in a Data Center can be summarised as :

- Energy Efficiency for Power&Cooling (PUE-DCIE)
- High Density Servers ; Storage Servers
- Co-location
- Refurbishment

POWER

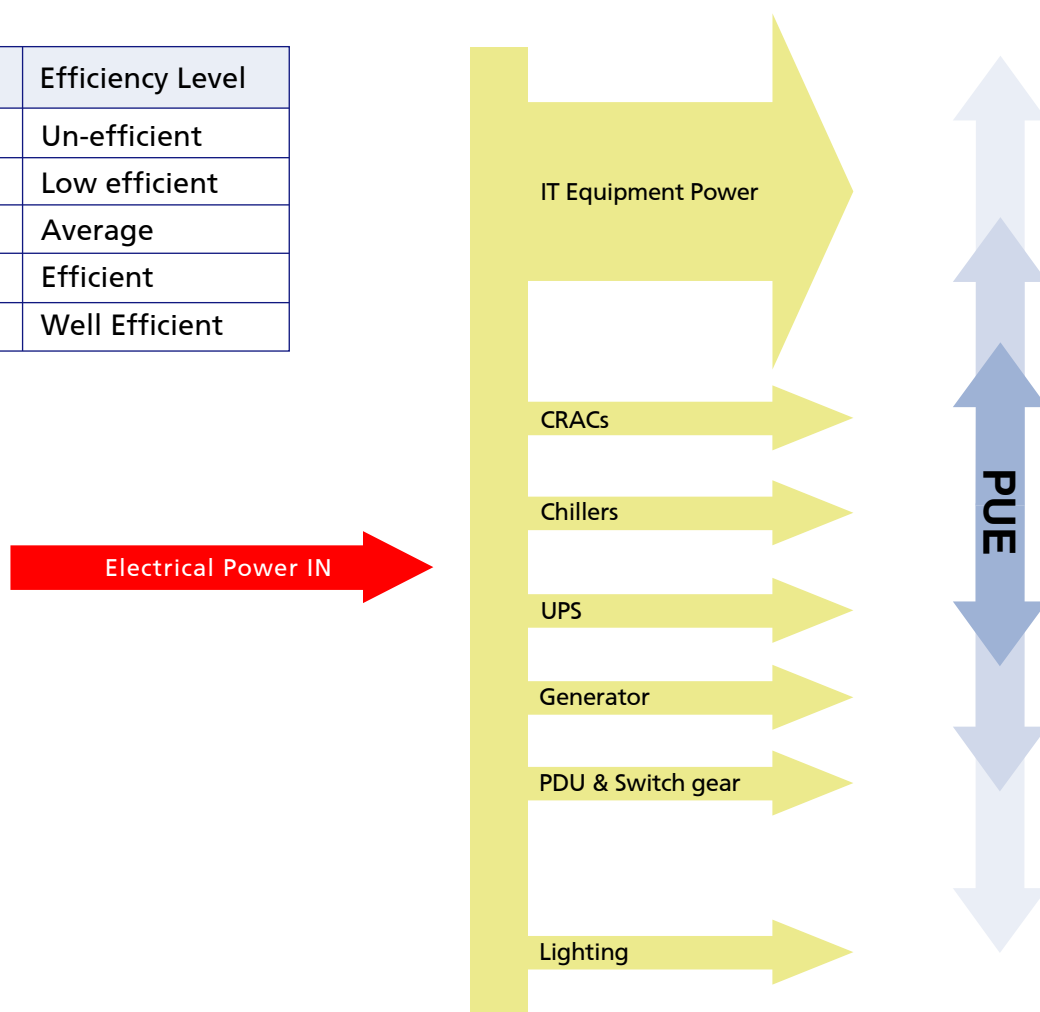

As the main continuous need to run all systems, power is the major element for all Data Centers. Data center designers should consider carefully in order to build efficient and effective Data Center power infrastructure.

Definitions of PUE (Power Usage Effectiveness) and DCiE (Data Center Infrastructure Efficiency):

$$\text{PUE} = \text{Total Facility Power} / \text{IT Equipment Power}$$

$$\text{DCiE} = \text{IT Equipment Power} / \text{Total Facility Power}$$

PUE	DCiE	Efficiency Level
3.0	%33	Un-efficient
2.5	%40	Low efficient
2.0	%50	Average
1.5	%67	Efficient
1.2	%83	Well Efficient

COOLING

Proper Data Center cooling is the key factor for operational life of hardware, shortening downtime of Data Center, saving on operational costs and accessing to green IT.

ENVIROMENTAL MONITORING & MANAGEMENT

Enviromental monitoring and management in your Data Center provides you visibility and control of vital parameters which ensures your uptime and efficiency.

RACKS & CABLING

The physical infrastructure of Data Centers are generated from racks and cabling. High-density, future-proof structured cabling systems are first choice for Data Center cabling projects.

Racks provide efficient housing solutions for valuable active and also passive equipments. The correct rack deployment strategy leads to efficient cooling and capacity management; helping significant savings on operation costs.

HCS DATA CENTER SOLUTIONS - RACKS & CONTAINMENTS

Data Centers are very dynamic environments demanding high density, scalable and flexible solutions to cope up with the rising IT applications: cabinets take an important part on answering those needs. Although cabinets are not the most expensive portion of the Data Center investment, their housing function for the valuable active and passive equipment and contribution to efficient cooling, make cabinets one of the key section for each Data Center.

Based on this awareness, HCS presents future-proof and feature-rich Data Center cabinet solutions, HCS Data Center Cabinet product portfolio is covering large variety of server cabinets and accessories, hot&cold corridor cabinet containment, overhead cabling management and open frames.

Ergonomically designed and aesthetic looking HCS DataLine 16 Data Center cabinets are designed in order to meet various needs of secure housing for existing and new generation servers and other active equipments. Thanks to its solid and stable construction, many heavy equipments can easily be deployed. Adjustable mounting vertical flanges allow installing additional data and power cables and equipment, even by pre-installed hardware.

Cabinet top cable management accessories and top&bottom cable entries provide neat & clean cable management.

Cold Corridor Containment serves for energy savings in Data Center cooling. The sliding doors are self-closing with mechanical lock. If required, doors can be electrically closed and integrated to the building management system.

HCS DATA CENTER SOLUTIONS - STRUCTURED CABLING

Cabling as the physical layer is the transmission media of the data which shall be chosen according to the network application requirements to be implemented today and shall be future-proof for the Data Centers.

Cabling design and installation should answer high MAC (Moves, adds and changes) needs of the Data Center. Monitoring and managing the physical layer and the network status shall ensure better uptime.

HCS cabling solution is applicable on Data Centers including a mix of copper and fibre components having high density, high reliability and high performance, enabling flexible design guide-lines, speed of installation, future readiness and ease of use.

HCS solution includes all the components needed (i.e cables, patch-panels, CP and CC patching, outlets and patch cords) tested and verified at the component-level based on the most recognised standards and drafts such as ;

- ANSI/TIA-568-C (all parts)
- CENELEC EN 50173 & EN 50228 (all sections)
- ISO/IEC 11801 & IEC 61156 (all sections)

HCS Data-Center Solutions include the following:

HCS DataLink 100e Category 5e components specified up to 100MHz

- 24-Port & 48-Port Telco (RJ-21) and iPass Panels.
- 24-Pair RJ-45 to RJ-21, RJ-45 to RJ-21 Cords.

HCS DataLink 250 Category 6 components specified up to 250MHz

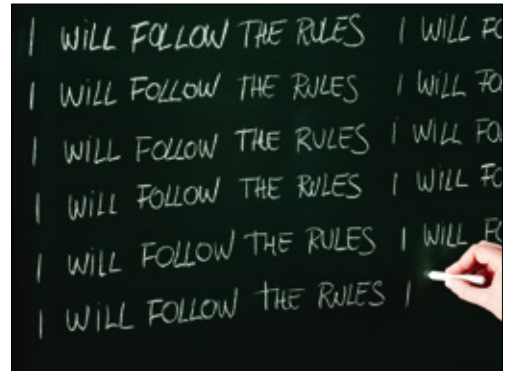

- UTP and shielded horizontal cables.
- Shielded and unshielded modular cords, CC and CP pre-terminated cords.
- Shielded and unshielded connectors.
- Unshielded module patch panels of 24 Port-1U & 48 Port-2U.
- Blank KSJ Panels up to 48 ports in 1U.
- Wall Mount & Rack Mount 110 Wiring Blocks.

HCS DataLink 500A Augmented Category 6 components specified up to 500MHz

- UTP and shielded horizontal cables.
- Shielded and unshielded modular cords, CC and CP pre-terminated cords.
- Shielded and unshielded connectors.
- Blank & staggered KSJ Panels up to 48 ports in 1U.

HCS CAT 6 angled patch panels

HCS DataLink 600

Category 7/Class F components specified up to 600 MHz

- Shielded horizontal cable
- Special HCS Cat7 Connector for Class F links/channels
- Shielded modular cords, CC and CP pre-terminated cords.
- Blank shielded Panels up to 24 ports in 1U
- True Class F performance on component base

HCS DataLink 1200

Category 7A / Class Fa components specified up to 1000 MHz

- Shielded 22AWG horizontal cable
- Special HCS Cat7 Connector for Class Fa links/channels
- Shielded & unshielded modular cords, CC and CP preterminated cords.
- Blank shielded Panels up to 24 ports in 1U.
- Expected to supports 40 GBASE-T on 100 meter distance
- True CAT7A / Class Fa performance

HCS CAT 7 Connector

HCS CAT 7 patch cord

HCS CAT 7 S/FTP 23AWG cable

HCS CAT 7 patch panel

HCS Datalink Fiber-Optic components

- Single mode standart fibers (most ITU standards), including bend-insensitive types.
- Multi mode fibers including OM1, OM2, OM3 and OM4; bend-insensitive for OM2,OM3 and OM4.
- MTD, Ribbon & Ruggedized Ribbon Trunk cables.
- Modular pre-terminated cables.
- MPO Panels, Connectors & Adapters.
- MPO Hybrid Fan-out modular cords (4 to 24 Fibers).
- Modular optical cords and pigtails.
- Fiber optic 19" panels.
- Fiber optic wall-mount patch panels and distribution boxes.
- Fiber optic high-Capacity Fiber-Optic Rack-Mount Cabinets up to 288 ports.

HCS DataLight Data-Center FO Cables

HCS DataLight patch panels & Rack Mount Cabinets

MPO Connectors, Adapters & Assemblies

HCS DATA CENTER SOLUTIONS - STRUCTURED CABLING

Phy-Fixx Real Time Physical Layer Monitoring and Management System

HCS physical layer monitoring and management ensures your Data Center cabling infrastructure reliability and gives you high flexibility in your MACs with a compatibility to other network management tools.

Rack Cabling Management

- Cable and Outlet Management
- Remote Site Management including network attached devices and reporting
- MACs and Work Order Management
- Compatibility with other network management tools

Cable routing for power and copper cables

Cable tray and mesh cable tray systems run power and data cables either in ceilings or in raised floors. The variety of our solutions guarantee the right solution for any conceivable application.

Cable routing for fibre optic cables

The modular system ensures a flexible, secure connection of sensitive fibre optic cables to the computer infrastructure. With various routing duct variants, fittings, end pieces, reductions and exits, you can match the system exactly to local requirements. The cable routing duct requires non metallic components and is completely halogen-free (PPO, ROHS-compliant, UL2024A standard certified).

Mounting systems

Cable routing duct for fibre optic cables, mesh cable trays or cable trays have common requirement: Universally applicable mounting systems. They ensure secure fixing beneath the ceiling, on the wall or in the floor, and are available in many different varieties.

Fire protection

In case of fire, extinguishing process is the most important issue which also prevents spread of the fire. Cables, which are running alongside the building can cause fire spreading out the whole facility. HCS fire protection systems work as a barrier to the fire via cable penetrations preventing the spread of fire and smoke into the next rooms.

Data Center Environmental Monitoring and Management is the key to ensure maximum uptime. All the critical parameters either rack-based or room based such as temperature, humidity, water flooding, pressure control, smoke, door access, movement, light intensity, IP camera recording, electrical parameters and also 3rd party hardware parameters such as cooling systems, ups systems and other required parameters shall be real time and centrally monitored, recorded and archived.

In case the measured values exceed pre-defined levels, alarming procedures shall take place and required actions shall be taken on time either by the system itself or by the responsible managers to avoid any downtime in the operation of the datacenter.

All these operations are applicable for any number of Data Centers even spread globally, on a centralised software solution.

HCS DATA CENTER SOLUTIONS - POWER DISTRIBUTION UNITS

Power consumption cost is extremely important for Data Center operation - this is pushing Data Center designers and managers to focus this area specifically.

The main reason of the poor power efficiency in the most of the existing Data Centers arise from the old power components such as UPS, PDU and server power supplies rather than the incoming power distribution (transformer-switchgears etc.).

HCS offers metered-monitored and managed&switched Power Distribution Units to monitor and manage your real-time consumption and to review and plan your power budgets.

Equipped with C13 and/or C19 outlets and 32A IEC 60309 plug, the professional HCS PDUs enable you to measure and display current, voltage, power and power consumption, temperature and humidity in real time. Web Access, SNMP Telnet/SSH, e-mail alarming are other important features that HCS PDUs provide in order to monitor and manage your Data Center power.

IEC 60320 C13

IEC 60320 C19

IEC 60309

HCS DATA CENTER SOLUTIONS - LCD CONSOLES

HCS 17' LCD KVM Console drawer provides easy access to your servers in your Data Centers with a superior video quality enabling an optional remote console over-IP and multi-platform support, based on a robust metal case.

DATALINE 16 DATA CENTER SERVER CABINETS

Description

HCS DataLine 16 Data Center Server Cabinets are specially designed for new generation Data Centers, in order to provide best possible housing for your valuable equipments.

HCS DataLine 16 Server Cabinets are having an attractive design combined with a long-lasting, solid & stable construction, guaranteed by the HCS DataLine Logo & Trademark.

Applications

The special design of HCS DataLine 16 Data Center Server Cabinets allow the use of a large variety and types of accessories, including 19" panels, hubs and active equipment, fixed and/or sliding shelves, fan units, power strips, pulleys, grounding and potential equalization bus bars, lighting units, stacking kits, floor fixing kits, cable management panels, and many other 19" devices and accessories.

Qualifications and Approvals

HCS DataLine 16 Server Cabinets are supported by HCS DoubleSafe™ QA Program and they comply to the following standards:

General	Steel Sheets	Powder Coating	Mechanical	Assembly	IT equipment safety	Fan Unit & Power Strips
<ul style="list-style-type: none"> <input type="checkbox"/> TS EN 60297-3-100/101/102 <input type="checkbox"/> DIN 41494 <input type="checkbox"/> TS EN 60529-1 <input type="checkbox"/> IP20 (Optional IP 42) 	<ul style="list-style-type: none"> <input type="checkbox"/> DIN EN 10130-91 <input type="checkbox"/> DIN EN 10327 <input type="checkbox"/> EREGLI 6112 	<ul style="list-style-type: none"> <input type="checkbox"/> DIN 67530 <input type="checkbox"/> ASTM D 2796 <input type="checkbox"/> ASTM D 3451 	<ul style="list-style-type: none"> <input type="checkbox"/> TS EN 61587-1 	<ul style="list-style-type: none"> <input type="checkbox"/> TS EN 60917-2-1/1-2 	<ul style="list-style-type: none"> <input type="checkbox"/> TS EN 60950-1 <input type="checkbox"/> IEC 60364-7-707 	<ul style="list-style-type: none"> <input type="checkbox"/> TS EN 60439-1 <input type="checkbox"/> TS EN 62208

Benefits & Features

- ✓ Solid and stable construction - providing support for large loads upto 1500 kg
- ✓ Light cabinet weight - allowing more equipment housing
- ✓ Adjustable profile positioning inside the cabinets (while there are servers and other active equipments)- enabling efficient installation of different size devices and maximise uptime
- ✓ Aesthetic & attractive design - can be used in open office environments.
- ✓ Flat packed design option- providing minimal storage space and saving transportation costs.
- ✓ 1100 & 1200 mm depth - enabling easy and comfortable installation of new generation deep servers (blade servers).
- ✓ Sophisticated cable channeling - enabling concealed cords routing.
- ✓ Clear u-marking inside the cabinets (both front and rear 19" profile) - enabling easy & simple equipment installation planning.
- ✓ Removable side panels via handles - enabling fast & easy cabinet stacking.
- ✓ Removable side, front and rear doors- allows using cabinet event as relay rack, if needed.
- ✓ Various cable entry holes - providing comfortable multiple cable entry.
- ✓ Toolless adjustable top cable organizers - enabling neat cabling for power & data.
- ✓ Stackable construction - allows to proper installation many cabinets side to side
- ✓ PVC stoppers - avoid metal surface noise while side panels are mounted
- ✓ Top & bottom fixing points - Providing fixing to floor and/or overhead cable tray

DATALINE 16 DATA CENTER SERVER CABINETS

General Properties

Material of Construction	Sheet & Galvanized steel. 1.0/1.2/1.5/2.0 mm thickness.
Paint and Color	Special steel finish with electrostatic powder coat, RAL 9005 black. Other colors available upon request.
Front Door	Solid metal, Oval shaped, nominal 85% perforated, one part. Opening left & right. 180 degree opening (135 degree when used in a row). Interchangeable door hinges.
Side Panels	2 parts, Removable with handles & lockable with slim latch.
Rear Door	Solid metal, flat, nominal 85% perforated, two parts. Opening left & right. 180 degree opening (135 degree when used in a row). Interchangeable door hinges.
Top Chassis & Cover	Monoblock, welded, CDFx form construction. Fan tray mountable. 2x(150x85 mm) + 2x (150x150 mm) cable entry spaces, all brush mountable. Fixing possibility to ceiling (with fixing accessory).
Bottom Chassis	Monoblock, welded, CDFx form construction. Fixing points either fixing to floor or raised floor. 150x300 mm cable entry hole (brush mountable) + 400x 680 mm ventilation hole (filter mountable).
19" profiles	Adjustable, 4 units (2 front, 2 rear). U-marked.
Vertical Cable Organizer	Mountable on sides & rear vertically (optional).
Front Door Lock	High quality, three-point lockable cylindrical mechanism with handle.
Levelling feet & Pulleys	Available (optional).
Loading Capacity	1500 kg max. (42U, TS EN 61587-1).

DATALINE 13 OPEN FRAMES

Description

HCS DataLine 13 Open Frames are specially designed for new generation Data Centers, in order to provide best possible housing for high-density cabling. HCS DataLine 13 Open Frames are having an attractive design combined with a long-lasting, solid & stable construction, guaranteed by the HCS DataLine Logo & Trademark.

Applications

The special design of HCS DataLine 13 Open Frames allow the use of a large variety and types of accessories, including 19" high-density patch panels, pulleys, floor fixing kits, cable management panels, and many other 19" devices and accessories.

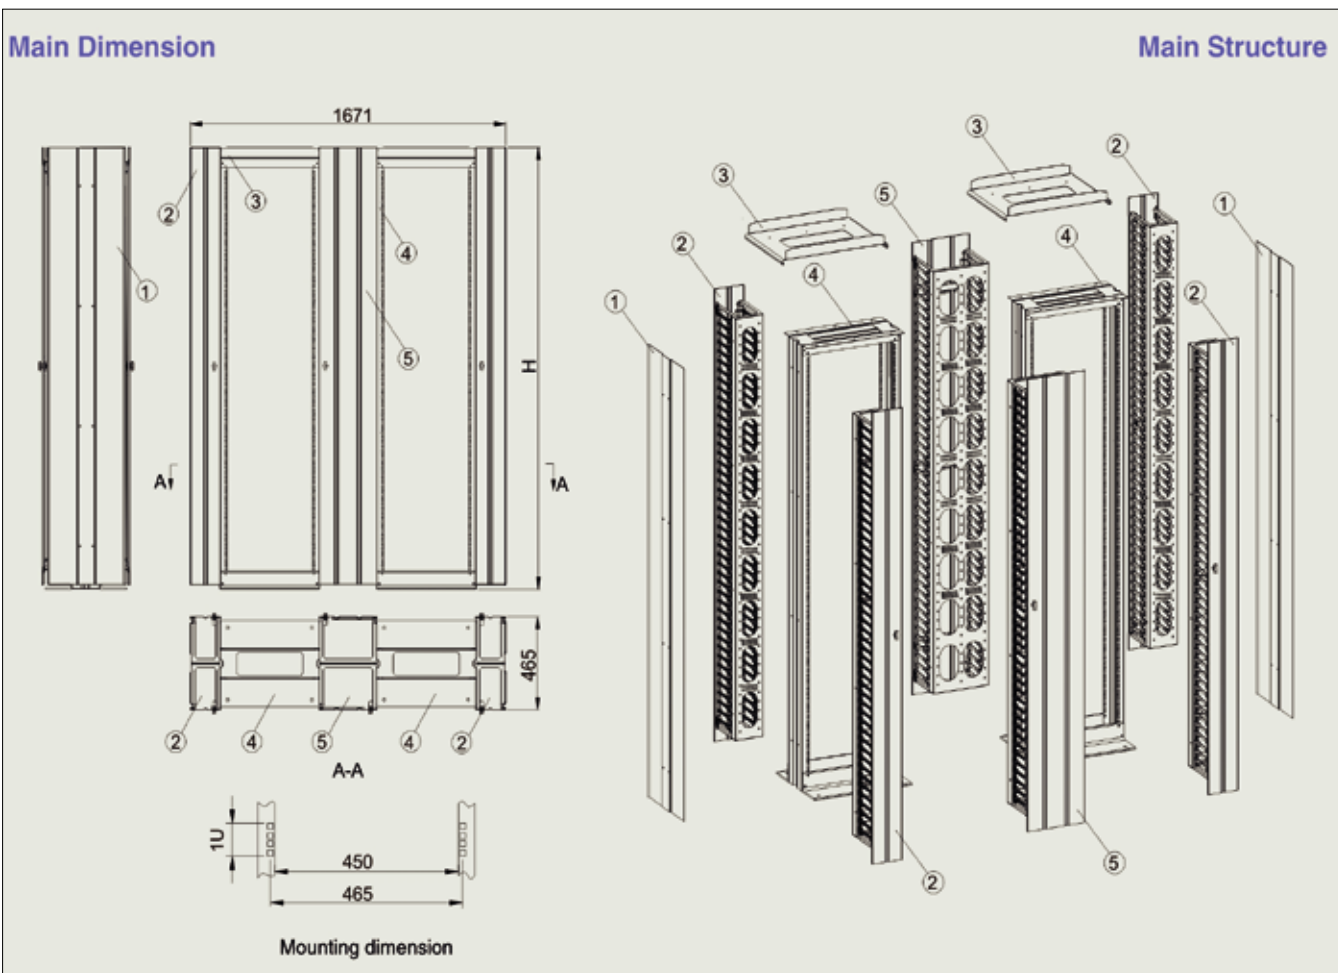

Qualifications and Approvals

HCS DataLine 13 Open Frames are supported by HCS DoubleSafe™ QA Program and they comply to the following standards:

Benefits & Features

- ✓ Solid and stable construction - providing support for large loads upto 500 kg
- ✓ Aesthetic & attractive design - can be used in open office environments.
- ✓ Flat packed design option- providing minimal storage space and saving transportation costs.
- ✓ Sophisticated cable channeling - enabling concealed cords routing.
- ✓ Top & bottom fixing points - providing fixing to floor and/or overhead cable tray.
- ✓ User-friendly design - easy to install and operate.

DATALINE DATA CENTER CABINETS' ACCESSORIES

**Description**

HCS DataLine series includes a wide range of high quality racks, cabinets and enclosures, specially designed for structured premise cabling in local area networks (LANs), Data Center environments, including distribution and equipment, cross connect cabinets and racks, splice boxes, climate control and many more components for both copper and fiber optic cabling systems.

HCS DataLine Accessories are compatible with all HCS DataLine Cabinets, providing an extensive range of accessories making HCS DataLine Cabinets extremely versatile, user-friendly and efficient.

All HCS DataLine Accessories have an attractive design combined with a long-lasting, solid&stable construction, guaranteed by HCS DataLine Logo & Trademark.

Applications

The large variety of HCS DataLine Cabinet Accessories for endless applications, including cabling, network and Data Center applications.

"State of the art Data Center Solutions"

ENVIRONMENTAL MONITORING & MANAGEMENT SOLUTION

**Description**

HCS DataLine Environmental Monitoring & Management tool is specially designed for new generation Data Centers, in order to provide best possible uptime.

Applications

The special design of HCS DataLine Environmental Monitoring & Management Tool allows centralised monitoring, management, storing and archiving of vital parameters in a Data Center such as temperature-humidity-water flooding-pressure control -smoke-door access-movement-light intensity-IP camera recording-electrical parameters.

Qualifications and Approvals

CE

Benefits & Features

- ✓ Large variety of monitoring parameters - providing management from single source.
- ✓ Professional and Centralised Management including IP cams recording - support best possible uptime for Data Center
- ✓ Ultimate report & archive tool - provide excellent back-up utility
- ✓ Third party hardware integration - providing simple and efficient management tool
- ✓ Power and Network Access Redundancy - ensures management tool is online all the time.

General Properties	
Mounting Size	1U, 19" adaptable main unit
Feeding Voltage	12V DC
Storage Temperature	-40.....+ 85 C ; 0.....%85 Rh
&Humidity Range	
Operational Temperature	-10.....+ 70 C ; 0.....%70 Rh
&Humidity Range	
Dimensions (WxDxH)	260x105x25 mm
Weigth	500 g.
Colour	Black
External Device Input	8 (supports up to 128 sensors)
Access Ports	1x10/100 Ethernet, 2xUSB, 1xRS232
Monitoring	Temperature-humidity-water flooding-air flow-pressure control-smoke-fire-air quality-door access-movement light intensity-IP camera recording-eletrcial parameters, voltage frequency
Alarming	WEB, E-Mail, SMS, Voice Calling, Buzzer, LCD Module, SNMP Traps
Management	All the sensors as well as all 3rd party hardware such as air-conditioning systems-UPS- IPcams- Electrical infrastructure over professional centralised software (optional) via RS232, RS485, TCP/IP, SNMP,XML, MODBUS)

VERTICAL POWER DISTRIBUTION UNITS - BASIC

**Description**

HCS DataLine Vertical PDUs are specially designed for new generation Data Centers, in order to supply high-quality & clean power to your valuable active equipment and servers.

Applications

The special design of HCS DataLine Vertical PDUs helps for high-quality & clean power to the servers in Data Center cabinets.

Qualifications and Approvals

ROHS, CE

Benefits & Features

- ✓ ZeroU, Single Phase 32A
- ✓ Schuko DIN 49440 16A outlets
- ✓ IEC 60309 plug
- ✓ 2x16A Circuit Breaker with Cover
- ✓ 8/24 way outlet alternatives

General Properties

Output socket type&quantity	18 or24 way DIN 49440 16A Schuko type
Plug Type	IEC60309 plug (32A 2P+E)
Rating Voltage	250VAC 50/60 Hz
Max.Power	8000 Watts
Safety Authentication	CE
Rating Current	32A
Protection	2x16A circuit breaker with cover
Product Size	L x W x H = 1612 x 44.4 x 66 mm
Mounting Length	Zero U, 1584 mm
Case Colour	Black
Cable dimension	3x6.0mm
Cable Length	3 metres

Ordering Information

HCS P/N	Description
C00-03D03	Vertical mounting, 18 way power strip, european (schuko) type, 18xschuko (din 49440 16a) sockets, iec60309 32a (2P+E) plug, aluminium housing, with 2 ways circuit breaker (250vac, 1x20a, 3x6.0mm_x3.0m)
C00-03D04	Vertical mounting, 24 way power strip, european (schuko) type, 18xschuko (din 49440 16a) sockets, iec60309 32a (2P+E) plug, aluminium housing, with 2 ways circuit breaker (250vac, 1x20a, 3x6.0mm_x3.0m)

VERTICAL POWER DISTRIBUTION UNITS - METERED

**Description**

HCS DataLine Vertical Metered PDUs are specially designed for new generation Data Centers, in order to supply high-quality & clean power to your valuable active equipment and servers.

Applications

The special design of HCS DataLine Vertical Metered PDUs helps for high-quality & clean power to the servers in Data Center cabinets.

Qualifications and Approvals

ROHS, CE

Benefits & Features

- ✓ ZeroU, Single Phase 32A
- ✓ IEC C13&C19 outlets
- ✓ IEC 60309 plug
- ✓ 2x16A Circuit Breaker with Cover
- ✓ Digital AC Amperemeter - Total PDU Current Load Monitoring
- ✓ Voice alarm

General Properties	
Output socket type&quantity	24 way IEC320 C13 10A and 4 way IEC320 C19 16A
Plug Type	IEC60309 plug (32A 2P+E)
Rating Voltage	250VAC 50/60 Hz
Max.Power	8000 Watts
Safety Authentication CE	
Rating Current	32A
Protection	2x16A circuit breaker with cover
Product Size	L x W x H = 1645x 44.4 x 66 mm
Mounting Length	Zero U, 1618,5 mm
Case Colour	Black
Cable dimension	3x6.0m ² m
Cable Length	3 metres
Monitoring Functions	Total PDU load current
Alarm Functions	Max value of PDU total load current
Alarming Method	Total PDU load current on the LCD display with voice alarm.

Ordering Information	
HCS P/N	Description
C00-03D05	20 way C13 & 4 way C19 IEC 320 power strip with ampermeter display, 0U, 32 Amp EN60309 Input Plug - 3M lead, 2 x 16A MCB

VERTICAL IP MONITORED POWER DISTRIBUTION UNITS

**Description**

HCS DataLine Vertical Managed & IP Monitored PDUs are specially designed for new generation Data Centers, in order to supply high-quality & clean power to your valuable active equipment and servers.

Applications

The special design of HCS DataLine Vertical Managed & IP Monitored PDUs helps for high-quality & clean power to the servers in Data Center cabinets.

Qualifications and Approvals

ROHS, CE

Benefits & Features

- ✓ ZeroU, Single Phase 32A PDU with IEC C13&C19 outlets and IEC 60309 plug
- ✓ Total load current, voltage, power(kW), energy consumption(kWh) and power factor monitoring
- ✓ Total energy consumption (kWh) recording
- ✓ Temperature/Humidity Sensors
- ✓ Max/Min alarming values setup via snmp and e-mail
- ✓ Web, SNMP and Telnet Access with SSH as option
- ✓ User Authorisation

General Properties

Output socket type&quantity	20 way IEC320 C13 10A and 4 way IEC320 C19 16A
Plug Type	IEC60309 plug (32A 2P+E)
Rating Voltage	250VAC 50/60 Hz
Max.Power	8000 Watts
Safety Authentication	CE
Rating Current	32A
Protection	32A circuit breaker with cover
Product Size	L x D x W = 1528 x 44.4 x 68 mm
Mounting Length	Zero U, 1495 mm
Case Colour	Black
Cable dimension	3x6.0mm ²
Cable Length	3 metres
Sensor Ports	3 x Temperature&Humidity
Monitoring Functions	Total load current, voltage, power(kW), energy consumption(kWh) and power factor, Operation state of the PDU, Temperature/Humidity state
Alarm Functions	Max./Min. value of total load current, Max./Min. value of Temperature/Humidity, When total load current exceeds preset limited value (system default)
Alarming Method	State indicator on NPDU control interface flashes, and NPDU buzzer rings, State indicator on Web interface flashes, and PC buzzer rings, E-mail automatically sent to system administrator, SNMP trap and Level signal sent by LOGIC port
Energy Consumption Functions	Recording total energy consumption (kWh) in per unit time
Linking Functions	Supporting to cascade and radial connected of up to 10pcs NPDU's
Event Log Record	Recording and saving alarm and operation information
User Management	User authority definition
Access Method	Accessing through Web browser, such as IE Accessing through Standard Network Management Protocol, SNMP(V1/V2) Telnet SSH (optional)
System Supporting	Supporting multi-user operation, and software updating

Ordering Information

HCS P/N	Description
C00-03D06	20 way C13 & 4 way C19 IEC 320 power strip, IP MONITORED, 0U, 32 Amp EN60309 Input Plug - 3M lead, 1x32A M

VERTICAL MANAGED & IP SWITCHED POWER DISTRIBUTION UNITS

**Description**

HCS DataLine Vertical Managed & IP Switched PDUs are specially designed for new generation Data Centers, in order to supply high-quality & clean power to your valuable active equipment and servers.

Applications

The special design of HCS DataLine Vertical Managed & IP Switched PDUs helps for high-quality & clean power to the servers in Data Center cabinets.

Qualifications and Approvals

ROHS, CE

Benefits & Features

- ✓ ZeroU, Single Phase 32A PDU with IEC C13&C19 outlets and IEC 60309 plug
- ✓ Total load current, voltage, power(kW), energy consumption(kWh) and power factor monitoring
- ✓ Outlet based load current, power(kW) and energy consumption(kWh) monitoring
- ✓ Outlet based on/off switching
- ✓ Total energy consumption (kWh) recording
- ✓ Temperature/Humidity Sensors
- ✓ Max/Min alarming values setup via snmp and e-mail
- ✓ Web, SNMP and Telnet Access with SSH as option
- ✓ User Authorisation

General Properties

Output socket type&quantity	16 way IEC320 C13 10A and 4 way IEC320 C19 16A
Plug Type	IEC60309 plug (32A 2P+E)
Rating Voltage	250VAC 50/60 Hz
Max.Power	8000 Watts
Safety Authentication	CE
Rating Current	32A
Protection	32A circuit breaker with cover
Product Size	L x D x W = 1848 x 66.6 x 44.4 mm
Mounting Length	Zero U, 1798 mm
Case Colour	Black
Cable dimension	3x6.0mm
Cable Length	3 metres
Sensor Ports	3 x Temperature&Humidity
Monitoring Functions	Total load current, voltage, power(kW), energy consumption(kWh) and power factor, Outlet load current, power(kW) and energy consumption(kWh) Outlet on/off state System running state, Logical port output, Temperature/Humidity state
Controlling Functions	Outlet switch on/off (also on LCD), Set the delay of outlet sequential switching, Set the automatic switching time of outlet, Set whether to immediately cut off power or not when it exceeds limited value, Keep the former state of individual outlet after reset
Alarm Functions	Max./Min. value of total load current, Max./Min. value of Temperature/Humidity, When total load current exceeds preset limited value (system default), When outlet load current exceeds preset limited value
Alarming Method	State indicator on NPDU control interface flashes, and NPDU buzzer rings, State indicator on Web interface flashes, and PC buzzer rings, E-mail automatically sent to system administrator, SNMP trap and Level signal sent by LOGIC port
Energy Consumption Functions	Recording total energy consumption (kWh) in per unit time
Linking Functions	Supporting to cascade and radial connected of up to 10pcs NPDU
Event Log Record	Recording and saving alarm and operation information
User Management	User authority definition
Access Method	Accessing through Web browser, such as IE Accessing through Standard Network Management Protocol, SNMP(V1/V2), Telnet SSH (optional)
System Supporting	Supporting multi-user operation, and software updating

LCD CONSOLES

**Description**

HCS DataLine LCD Consoles are specially designed for new generation Data Centers, in order to provide easy access to the servers.

Applications

HCS DataLine LCD Console acts as a single LCD drawer or LCD KVM drawer. HCS DataLine LCD Consoles can be equipped with 8 or 16 KVM ports and/or with optional IP port to access your servers with a superior video quality by offering multiplatform and combo connection features.

Qualifications and Approvals

ROHS, CE

Benefits & Features

- ✓ 17" LCD display
- ✓ Turkish or English keyboard
- ✓ Optional Integrated 8 or 16 Port KVM Switch
- ✓ Supports an optional remote console (CAT5 based or Over-IP)
- ✓ CAT5 Console upto 300 metres away from KVM switch
- ✓ Supports multiplatform - PS/2 or USB computers (SUN and MAC)
- ✓ Supports DOS, Windows, Netware, Unix, Linux, MacOS
- ✓ Hot pluggable - Add or remove connected PCs without having to power down the KVM switch or PCs
- ✓ Superior video quality - Up to 1280x1024, DDC2B
- ✓ No software required - easy PC selection via push buttons hot keys or OSD (on screendisplay)
- ✓ Supports daisy-chaining up to 7 units
- ✓ Auto scan mode
- ✓ Metal case, rack mountable

General Properties	
LCD Size	17"
Computer Connections (Maximum)	Single / 8 (64) / 16 (128)
Computer Connectors	DB 15 Female
Console Ports	1 (One Local), plus 1 Optional Modules : Selectable CAT5-Based or IP-Based Remote Console
CAT5-Based Remote Console	RJ-45 Connector Console up to 300 metres away from KVM switch with superior auto-adjust RGB gain/delay control capability
IP-Based Remote Module	RJ-45 8P8C for 10/100M Ethernet DB-9 pin mal efor Modem, Null modem and serial power Control Mini USB 2.0 receptacle
Daisy Chaining	Daisy Chainable upto 8 levels ; Connector : DB15 (Female Type)
Computer Selection	On Screen Display (OD), Hot Key, Push Button
Hotkey	Provides various Hotkeys (Scroll-Lock/ Caps-Lock/ Num-Lock/ Ctrl/ Alt/ Win)
Auto-Scan Intervals	5 - 99 s.
Keyboard / mouse Emulation	PS/2
Video Resolution (Local Console)	1280x1024
Video Resolution (Remote Console)	1600x1200 for CAT5-Based 150 metres remote console, 1024x768 for CAT5-Based 300 metres remote console, 1600x1200 for IP-Based remote console
Power Adapter	DC 12V
Power Adaptor for CAT5	DC 9V, 500mA
Remote Console Dongle	
Housing	Heavy-Duty Metal
Size	19" Rack mount, 1U
Weight	20,9/21,1kg / 21,5kg
Dimensions (LxWxH)	600x450x44 mm.

Category 6 U/UTP 100 Ohm Horizontal LAN Cables

**Description**

HCS DataLink 250 cable series consists of 100 Ohm impedance, 4-pair and 8-pair U/UTP cables for horizontal installations in local area networks (LANs). All cables fully conform to and provide a substantial margin above all Category 6 requirements of ANSI/TIA/568-C.2 and IEC 61156-5.

Applications

HCS DataLink 250 Horizontal cables support all relevant LAN applications, including the following protocols:

- 1000BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 250 Cables are tested and verified for full compliance with the following standards:

- ❑ ANSI/TIA/568-C.2
- ❑ IEC 61156-5 (ISO/IEC-11801 2nd Edition).
- ❑ CENELEC EN 50288-5

Benefits & Features

- ✓ Testing every box or reel of cable prior to shipment - providing the highest degree of quality assurance.
- ✓ Exceptional material properties and cable design - providing a unique Century™ Lifetime Warranty.
- ✓ High ACR values - providing low BER (Bit-Error-Rate) in all applications.
- ✓ Extremely high pair-balance - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Revolutionary pair lay scheme - providing an extremely low delay skew.
- ✓ Co-extruded crisp and clear spiral color coding of wires - providing positive wire identification and ease of installation.
- ✓ Descending sequential meter mark - providing easy stock and left-over handling.
- ✓ Smooth and rigid jacket - proving fast and easy cable pulling and installation.
- ✓ Batch number printed every meter - providing fast retrieval of test results from data-base.
- ✓ A comprehensive product range - providing all state-of-the-art cable constructions.
- ✓ Large variety of packaging options - providing minimum scrap and left-over cable sections.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Physical and Mechanical Properties

4 color-coded, unshielded twisted pairs cabled together around a star-shaped filler and overall jacketed. Siamese (Figure-8) cables are made of two identical 4-pair cables connected in a zip-cord formation, one cable identified with two raised ribs on the jacket surface.

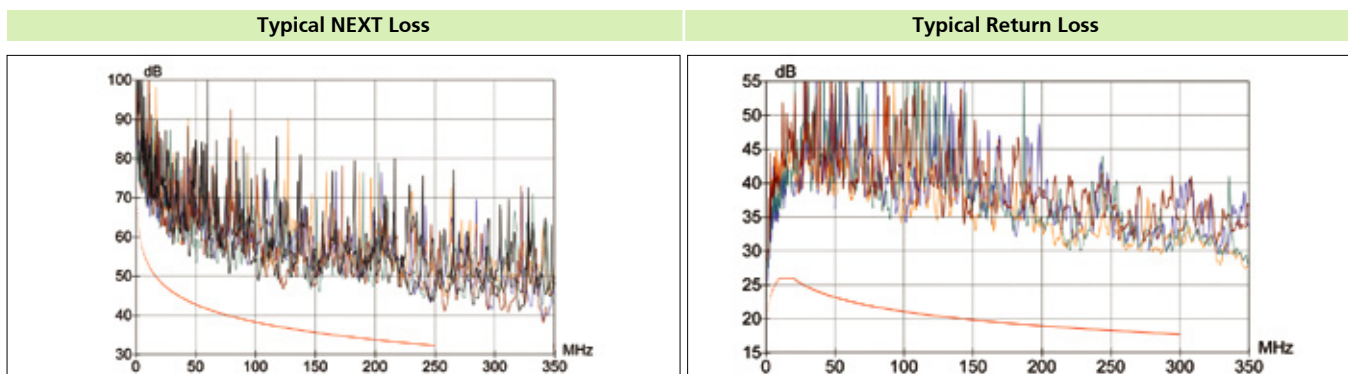

Basic Conductor	Solid, 23AWG, 0.57 mm, bare annealed copper
Insulation	Polyolefin
Number of insulated conductors	8, twisted in 4 pairs. (8 pairs in FIG-8 cables)
Color Code of Pairs	Blue x White/Blue, Orange x White/Orange, Green x White/Green, Brown x White/Brown.
Overall Tape Wrap	None.
Overall shield	None.
Drain wire	None.
Outer Jacket	LSOH Halogen free flame retardant or PVC compound.
Standard Jacket Color	Light Gray RAL 7035. Other colors available upon request.
Standard Surface Marking	Includes HCS PIN, cable description, Meter mark and Batch Number.
Pulling force	50 N/m ² max.
Short Term Bend Radius	8xOD mm
Long Term Bend Radius	4xOD mm
Storage Temperature	-20 to +80C
Temperature operating range	-20 to +60C
Installation temperature range	0 to +50C
Flame Test	IEC 60332-1
Halogen content in LSOH cables	Null.

Category 6 U/FTP 100 Ohm Horizontal LAN Cables

Description

HCS DataLink 250 cable series consists of 100 Ohm impedance, 4-pair and 8-pair U/FTP cables for horizontal installations in local area networks (LANs). All cables fully conform to and provide a substantial margin above all Category 6 requirements of ANSI/TIA/568-C.2 and IEC 61156-5.

Applications

HCS DataLink 250 Horizontal cables support all relevant LAN applications, including the following protocols:

- 1000BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 250 Cables are tested and verified for full compliance with the following standards:

- ❑ ANSI/TIA/568-C.2
- ❑ IEC 61156-5 (ISO/IEC-11801 2nd Edition)
- ❑ CENELEC EN 50288-5

Benefits & Features

- ✓ Testing every reel of cable prior to shipment - providing the highest degree of quality assurance.
- ✓ Exceptional material properties and cable design - providing a unique Century™ Lifetime Warranty.
- ✓ High ACR values - providing low BER (Bit-Error-Rate) in all applications.
- ✓ Extremely high pair-balance and individual pair shield - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Revolutionary pair lay scheme - providing an extremely low delay skew.
- ✓ Descending sequential meter mark - providing easy stock and left-over handling.
- ✓ Smooth and rigid jacket - proving fast and easy cable pulling and installation.
- ✓ Batch number printed every meter - providing fast retrieval of test results from data-base.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Physical and Mechanical Properties

4 color-coded, individually foil-shielded twisted pairs cabled together with a tin-coated drain-wire, overall wrapped with a polyester tape and overall jacketed. Siamese (Figure-8) cables are made of two identical 4-pair cables connected in a zip-cord formation, one cable identified with two raised ribs on the jacket surface.

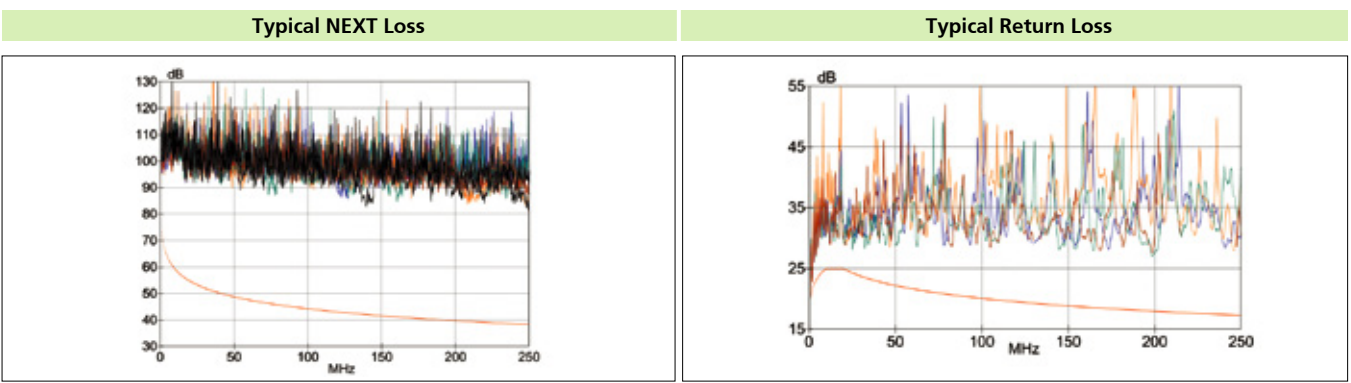

Basic Conductor	Solid, 23AWG, 0.57 mm, bare annealed copper
Insulation	Polyolefin
Number of insulated conductors	8, twisted in 4 pairs. (8 pairs in FIG-8 cables)
Color Code of Pairs	Blue x White, Orange x White, Green x White, Brown x White.
Individual pair shield	Laminated aluminum foil (foil face outward) providing 100% coverage.
Drain wire	Solid, 24AWG, 0.51 mm, tin-coated annealed copper
Overall Tape Wrap	Polyester tape, providing 100% coverage.
Outer Jacket	LSOH Halogen free flame retardant or PVC compound.
Standard Jacket Color	Light Gray RAL 7035. Other colors available upon request.
Standard Surface Marking	Includes HCS P/N, cable description, Meter mark and Batch Number.
Pulling force	50 N/m ² max.
Short Term Bend Radius	8xOD mm
Long Term Bend Radius	4xOD mm
Storage Temperature	-20 to +80C
Temperature operating range	-20 to +60C
Flame Test	IEC 60332-1
Halogen content in LSOH cables	Null.

Category 6E U/UTP 100 Ohm Horizontal LAN Cables

**Description**

HCS DataLink 250E cable series consists of 100 Ohm impedance, 4-pair and 8-pair U/UTP cables for horizontal installations in local area networks (LANs). All cables fully conform to and provide a substantial margin above all Category 6 requirements of ANSI/TIA/568-C.2 and IEC 61156-5.

Applications

HCS DataLink 250E UTP yatay kablolar, ilgili tüm LAN uygulamaları için aşağıdaki protokoller de dahil olmak üzere desteklemektedir:

- 1000BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps ve 16 Mbps
- Broadband ve Baseband Video
- ISDN Basic ve Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 250E Cables are tested and verified for full compliance with the following standards:

Augmented Category 6 U/MRTP 100 Ohm Horizontal LAN Cables

**Description**

HCS DataLink 500A cable series consists of 100 Ohm impedance, 4-pair and 8-pair U/MRTP cables for horizontal installations in local area networks (LANs). All cables fully conform to and provide a substantial margin above all Augmented Category 6 UTP requirements of TIA/EIA 568-C.2 and Category 6A of IEC 61156-5.

Applications

HCS DataLink 500A Horizontal cables support all presently available and future LAN applications, including the following protocols:

- 10GBASE-T 10 Gigabit Ethernet
- 1000BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 500A Cables are tested and verified for full compliance with the following standards::

- Augmented Category 6 UTP according to ANSI/TIA/EIA-568-C.2
- Category 6A according to IEC 61156-5.

Benefits & Features

- ✓ Exceptional transmission properties - suitable for 10GBE applications on 100m channels.
- ✓ Testing every reel of cable prior to shipment - providing the highest degree of quality assurance.
- ✓ Exceptional material properties and cable design - providing a unique Century™ Lifetime Warranty.
- ✓ High ACR values - providing low BER (Bit-Error-Rate) in all applications.
- ✓ Extremely high pair-balance - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Revolutionary pair lay scheme - providing an extremely low delay skew.
- ✓ Descending sequential meter mark - providing easy stock and left-over handling.
- ✓ Smooth and rigid jacket - proving fast and easy cable pulling and installation.
- ✓ Batch number printed every meter - providing fast retrieval of test results from data-base.
- ✓ Unique DoubleSafe™ Quality Assurance Program providing lowest rejection rate available.

Physical and Mechanical Properties

4 color-coded twisted pairs, each covered by a metal-reflector, cabled together, overall wrapped with a polyester tape and overall jacketed.

Siamese (Figure-8) cables are made of two identical 4-pair cables connected in a zip-cord formation, one cable identified with two raised ribs on the jacket surface.

Basic Conductor	Solid, 23AWG, 0.57 mm, bare annealed copper
Insulation	Polyolefin
Number of insulated conductors	8, twisted in 4 pairs. (8 pairs in FIG-8 cables)
Color Code of Pairs	Blue x White, Orange x White, Green x White, Brown x White.
Overall Tape Wrap	Plastic tape, providing 100% coverage.
Drain wire	None.
Metal Reflector	Laminated aluminum foil (foil face in) providing 100% coverage.
Outer Jacket	LSOH Halogen free flame retardant or PVC compound.
Standard Jacket Color	Light Gray RAL 7035. Other colors available upon request.
Standard Surface Marking	Includes HCS P/N, cable description, Meter mark and Batch Number.
Pulling force	50 N/mr ² max.
Short Term Bend Radius	8xOD mm
Long Term Bend Radius	4xOD mm
Storage Temperature	-20 to +80C
Temperature operating range	-20 to +60C
Flame Test	IEC 60332-1
Halogen content in LSOH cables	Null.

Augmented Category 6 U/MRTP 100 Ohm Horizontal LAN Cables

Augmented Category 6 U/FTP 100 Ohm Horizontal LAN Cables

Description

HCS DataLink 500A cable series consists of 100 Ohm impedance, 4-pair and 8-pair U/FTP cables for horizontal installations in local area networks (LANs). All cables fully conform to and provide a substantial margin above all Augmented Category 6 ScTP requirements of ANSI/TIA/568-C.2 and Category 6A of IEC 61156-5.

Applications

HCS DataLink 500A Horizontal cables support all presently available and future LAN applications, including the following protocols:

- 10GBASE-T 10 Gigabit Ethernet
- 1000BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 500A Cables are tested and verified for full compliance with the following standards:

- Augmented Category 6 ScTP according to ANSI/TIA/568-C.2
- Category 6A according to IEC 61156-5.

Benefits & Features

- ✓ Exceptional transmission properties - suitable for 10GBE applications on 100m channels.
- ✓ Testing every reel of cable prior to shipment - providing the highest degree of quality assurance.
- ✓ Exceptional material properties and cable design - providing a unique Century™ Lifetime Warranty.
- ✓ High ACR values - providing low BER (Bit-Error-Rate) in all applications.
- ✓ Extremely high pair-balance and individual foil shields - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Revolutionary pair lay scheme - providing an extremely low delay skew.
- ✓ Descending sequential meter mark - providing easy stock and left-over handling.
- ✓ Smooth and rigid jacket - proving fast and easy cable pulling and installation.
- ✓ Batch number printed every meter - providing fast retrieval of test results from data-base.
- ✓ Unique DoubleSafe™ Quality Assurance Program providing lowest rejection rate available.

Physical and Mechanical Properties

4 color-coded, individually foil-shielded twisted pairs cabled together with a tin-coated drain-wire, overall wrapped with a polyester tape and overall jacketed. Siamese (Figure-8) cables are made of two identical 4-pair cables connected in a zip-cord formation, one cable identified with two raised ribs on the jacket surface.

Basic Conductor	Solid, 23AWG, 0.57 mm, bare annealed copper
Insulation	Polyolefin
Number of insulated conductors	8, twisted in 4 pairs. (8 pairs in FIG-8 cables)
Color Code of Pairs	Blue x White, Orange x White, Green x White, Brown x White.
Individual pair shield	Laminated aluminum foil (foil face outward) providing 100% coverage.
Drain wire	Solid, 24AWG, 0.51 mm, tin-coated annealed copper
Overall tape	Polyester tape providing 100% coverage.
Outer Jacket	LSOH Halogen free flame retardant or PVC compound.
Standard Jacket Color	Light Gray RAL 7035. Other colors available upon request.
Standard Surface Marking	Includes HCS PIN, cable description, Meter mark and Batch Number.
Pulling force	50 N/mm ² max.
Short Term Bend Radius	8xOD mm
Long Term Bend Radius	4xOD mm
Storage Temperature	-20 to +80C
Temperature operating range	-20 to +60C
Flame Test	IEC 60332-1
Halogen content in LSOH cables	Null.

Category 7+ S/FTP 100 Ohm Horizontal LAN Cables Tested to 1000 MHz

Description

HCS DataLink 600 CAT 7+ cable series consists of 100 Ohm impedance, 4-pair and 8-pair S/FTP cables for horizontal installations in local area networks (LANs). All cables fully conform to and provide a substantial margin above all Category 7 requirements of IEC 61156-5 (Specified in ISO/IEC 11801) and are tested up to 1000MHz.

Applications

HCS DataLink 600 CAT 7+ Horizontal cables support all presently available and future LAN applications, including the following protocols:

- Broadband Digital and Analog CATV signals up to 1000 MHz
- SOHO and multiple simultaneous applications on all 4 pairs
- 10GBASE-T 10 Gigabit Ethernet
- 1000BASE-T 1 Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 600 CAT 7+ Cables are tested and verified for full compliance with the following standards:

- ☐ IEC 61156-5 (ISO/IEC-11801)
- ☐ CENELEC EN 50288-4

Qualifications and Approvals

- ✓ Exceptional transmission properties - suitable for 10GBE applications on 100m channels.
- ✓ Testing every reel of cable prior to shipment - providing the highest degree of quality assurance.
- ✓ Exceptional material properties and cable design - providing a unique Century™ Lifetime Warranty.
- ✓ High ACR values - providing low BER (Bit-Error-Rate) in all applications.
- ✓ Extremely high pair-balance and double shield - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation, maximizing noise immunity and preventing any alien-crosstalk (AXT).
- ✓ Revolutionary pair lay scheme - providing an extremely low delay skew.
- ✓ Descending sequential meter mark - providing easy stock and left-over handling.
- ✓ Smooth and rigid jacket - proving fast and easy cable pulling and installation.
- ✓ Batch number printed every meter - providing fast retrieval of test results from data-base.
- ✓ A comprehensive product range - providing all state-of-the-art cable constructions.
- ✓ Large variety of packaging options - providing minimum scrap and left-over cable sections.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.
- ✓ Full compliance with EU Directive 2002/95/CE (RoHS).

Physical and Mechanical Properties

4 color-coded, individually foil shielded twisted pairs cabled together, overall shielded with a tin-coated copper braid and overall jacketed. Siamese (Figure-8) cables are made of two identical 4-pair cables connected in a zip-cord formation, one cable identified with two raised ribs on the jacket surface.

Basic Conductor	Solid, 23AWG, bare annealed copper
Insulation	Polyolefin
Number of insulated conductors	8, twisted in 4 pairs. (8 pairs in FIG-8 cables)
Color Code of Pairs	Blue x White, Orange x White, Green x White, Brown x White.
Individual pair shield	Polyester-aluminum foil (foil face out), providing 100% coverage.
Overall shield	Tin coated copper braid laid in close contact over the inner foils.
Outer Jacket	LS0H Halogen free flame retardant or PVC compound.
Standard Jacket Color	Light Gray RAL 7035. Other colors available upon request.
Standard Surface Marking	Includes HCS P/N, cable description, Meter mark and Batch Number.
Pulling force	50 N/mm ² max.
Short Term Bend Radius	8xOD mm
Long Term Bend Radius	4xOD mm
Storage Temperature	-20 to +60C
Temperature operating range	-20 to +60C
Installation temperature range	0 to +50C
Flame Test	IEC 60332-1, IEC 60332-3-24 or IEC 60332-3-25.
Halogen content in LS0H cables	IEC 60754 (gas) & IEC 61034 (smoke)

Category 7+ S/FTP 100 Ohm Horizontal LAN Cables Tested to 1000 MHz

Category 7+ S/FTP 100 Ohm Horizontal LAN Cables Tested to 1200 MHz

Description

HCS DataLink 600 CAT 7+ kablo serisi; 100 Ohm empedansda, yatay yapısal kablolama sistemleri için kullanılmakta olan 4 ve 8 perli S/FTP kabloları kapsamaktadır. Tüm DataLink 600 serisi kablolar, IEC 61156-5 (ISO/IEC 11801) standardının gereksinimlerinin çok üzerinde bir performans sergilemekte ve 1200 MHz'e kadar test edilmektedir.

Applications

HCS DataLink 600 CAT 7+ yatay kablolar, günümüzde mevcut ve gelecekteki muhtemel LAN uygulamalarını aşağıdaki protokoller de dahil olmak üzere desteklemektedir:

- 1200 MHz'e kadar Broadband Dijital ve Analog CATV sinyalleri
- SOHO ve tüm 4 perde çift simültane uygulama
- 10GBASE-T 10 Gigabit Ethernet
- 1000BASE-T 1 Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps ve 16 Mbps
- Broadband ve Baseband Video
- ISDN Basic ve Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 600 CAT 7+ yatay kablolar aşağıdaki standartlara göre tamamen test edilip onaylanmıştır:

- ☐ IEC 61156-5 (ISO/IEC-11801)
- ☐ CENELEC EN 50288-4

Benefits & Features

- ✓ Olağanüstü iletim değerleri - 100 metre uç tan uca kanal (Channel) uygulamalarında 10GBE'yi destekler.
- ✓ Sevkiyat öncesi her makara veya kutu kablonun tek tek test edilmesi - En üst düzey kalite güvencesini sağlar.
- ✓ Olağanüstü malzeme özellikleri ve kablo dizaynı - Benzersiz Century™ Ömür Boyu Garanti sağlar.
- ✓ Yüksek ACR değerleri - Tüm uygulamalarda en düşük veri kaybı oranını sağlar.
- ✓ Oldukça yüksek per dengesi ve çift folyolu yapı - kablodan dışarı sızan ışımayı minimize, gürültü bağışıklığını maksimize ederek mükemmel Elektromanyetik Uyumluluk (EMC) sağlar. Aynı zamanda Alien Crosstalk (AXT)'un da oluşmasına engel olur.
- ✓ Benzersiz per yayma dizaynı - perler arasındaki sinyal gecikmesini minimize eder.
- ✓ Kolay anlaşılabilen ve ayırdedilebilen renk kodlaması - perlerin kolayca ayrıştırılabilmesini sağlar ve kablonun sonlandırılmasını kolaylaştırır.
- ✓ Aşağı doğru azalan ardışık metraj bilgisi- Kolay stok ve kablo kalan miktarı takibi sağlar.
- ✓ Pürüzsüz ve rijit dış kılıf- Kablonun kutusundan kolay ve hızlı çekilmesi ve kurulmasına yardımcı olur.
- ✓ Metraj bilgisinde yer alan parti numarası- Kabloya ait test sonucuna veri tabanımızdan ulaşılmasını sağlar.
- ✓ Oldukça geniş ürün yelpazesi - En son teknoloji ürünü tüm kablo konstrüksiyonlarını mevcut kılar.
- ✓ Alternatifli paketleme imkanı - kablonun en verimli kullanılması ve atık kablo oranının en az olmasını sağlar.
- ✓ Benzersiz DoubleSafe™ Kalite Güvence Programı - ürün iade oranının minimize edilmesini sağlar.
- ✓ 2002/95/CE (RoHS) AB Direktiflerine tam uyumludur.

Physical and Mechanical Properties

4 adet renk kodlu, ayrı ayrı folyolanmış bükümlü perler birlikte kablolaştırılmış, kalay kaplı bakır saç örgü ile kaplanmış ve kılıflanmıştır. Siamese (Fig-8) kablolar iki özdeş kablonun "fermuar" şeklinde birleştirilmesiyle imal edilmektedirler. Kabloların bir tanesinde dış kılıf üzerinde yer alan çıkıntı ile kablonun sonlandırma yapılırken doğru tarafta sonlandırılması sağlanmış olur.

Temel İletken	Katı, 23AWG, tavlı çıplak bakır.
İzolasyon	Polyolefin
İzole İletken Sayısı	8, bükülmüş 4 per halinde (Fig-8 kablolarda 16 izole iletken, 8 per halinde).
Perlerin Renk Kodları	Mavi x Beyaz, Turuncu x Beyaz, Yeşil x Beyaz, Kahverengi x Beyaz.
Per folyosu	Polyester-alüminyum folyo (folyo yüzü dış tarafa), %100 koruma sağlar.
Dış Folyo (Blendaj)	Per folyolarıyla yakın temasta kalay kaplı bakır saç örgü.
Dış Kılıf	LSOH (Halogen free) alev geciktirmeli veya PVC bileşen.
Standart Dış Kılıf Rengi	Açık Gri RAL 7035. İstenirse diğer renkler mevcuttur.
Standart kablo yazı bilgisi	HCS Ürün kodu, kablo tanımlaması, metraj bilgisi ve parti numarası.
Çekme kuvveti	50 N/mm ² maks.
Bükülme yarıçapı (kurulum (kısa dönem))	8xKablo dış çapı (mm).
Bükülme yarıçapı (kullanım (uzun dönem))	4xKablo dış çapı (mm).
Depolama Sıcaklığı	-20 / +80C
Çalışma Sıcaklığı	-20 / +60C
Kurulum (Enstelasyon) Sıcaklığı	0 / +50C
Alev Testi	IEC 60332-1, IEC 60332-3-24 veya IEC 60332-3-25
LSOH kablolarda halojen miktarı	IEC 60754 (gaz) & IEC 61034 (duman)

4-Pair and 2-Pair Category 5e Unshielded RJ-45 to TELCO Copper Patch Panels

Description

HCS DataLink unshielded copper RJ-45 to TELCO patch panel series includes high performance 24-Port and 48-Port Category 5e panels specially designed for data-centers for structured premise cabling in local area networks (LANs).

HCS RJ-45 to TELCO patch panels are available in two optional configurations:

- 4-Pair CAT 5e RJ-45 to TELCO panels provide one TELCO back interconnection 25 Pair block for each module of 6 RJ-45 ports, ready for 25 Pair TELCO patch-cords (RJ-21). This configuration supports all CAT 5e applications, including 1GBASE-T.
- 2-Pair CAT 5e RJ-45 to TELCO panels provide one TELCO back interconnection 25 Pair block for each two modules of 6 RJ-45 ports, ready for 25 Pair TELCO patch-cords (RJ-21). In this configuration, only two pairs in each RJ-45 port are terminated: Pins 1-2 and 3-6, providing 10BASE-T and 100BASE-TX support only. All panels fully conform to and provide a substantial margin above all ANSI/TIA/568-C.2 Category 5e, CENELEC EN 50173 and ISO/IEC-11801 (2nd Edition) requirements.

The HCS Logo and the DataLink 100e Trademark ensure long lasting high-performance and full support of all relevant applications, including 1000BASE-T (Gigabit-Ethernet).

Applications

HCS DataLink 100e unshielded copper RJ-45 to TELCO patch panels are used mainly in data-centers and telecommunications rooms and they fully support all relevant LAN applications, including the following protocols:

- 1000BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 and X.11

Qualifications and Approvals

HCS DataLink 100e panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system.

HCS DataLink 100e panels comply to the following standards:

Transmission	EMC	Safety
<input type="checkbox"/> ANSI/TIA/568-C.2	<input type="checkbox"/> EN-55022, Class B (Europe)	<input type="checkbox"/> UL94 V-0 rated plastic materials
<input type="checkbox"/> ISO/IEC-11801 (2nd Edition)	<input type="checkbox"/> FCC Part 15, Subpart J, Class A (USA)	<input type="checkbox"/> Zero-halogen in LSOH constructions.

Benefits & Features

- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Exceeding Category 5e performance - providing full support to Gigabit Ethernet.
- ✓ High quality metal casing - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Robust and installer-friendly design and Printed labels for port identification - providing reduced installation and operating costs.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

General Properties

Material of construction	Galvanized Steel.
Paint and standard color	Black, Powder paint finish or plastic front.
Connector module holder	High impact, Flame-retardant plastic compound, UL 94 V-0.
Housing material - Jack & IDC	High impact FR plastic rated UL 94 V-0.
Jack spring contact coating	1.27µm (50µ-Inch) hard Gold over 2.54µm (100µ-Inch) Nickel plating.
Plug Retention Force	14 Kgf (140N) min.
Plug to jack contact force	100 grams min. (using HCS approved plug).
Plug insertion durability	750 mating cycles
Storage temperature range	-40 to +70C
Operation conditions	-20 to +60C at 0-90% RH (Non condensing)
Packaging	One unit per box.

Category 5e Unshielded RJ-45 to iPass Pre-Terminated Copper Patch Panels

Açıklama

HCS DataLink unshielded copper RJ-45 to iPass patch panel series includes high performance 24-Port and 48-Port Category 5e panels specially designed for data-centers and structured premise cabling in local area networks (LANs). HCS iPass to RJ-45 patch panels consist of 12-port (4 x 6) or 12-port preterminated cassettes loaded into a 1U Rack Mount Enclosure. The cassettes slide easily in and out of the panels, allowing fast installation. The Simple cassette design allows for fast upgrades or expansion of systems with minimum installation time. All cassettes are 100% factory tested, enabling flexible configuration and cost effective installation, while minimizing the need for on-site testing. 6-port cassettes have one iPass port, 12-port cassettes have two iPass Ports. Pre-terminated iPass to iPass 25 pair Category 5e cables (1-90 meter length) can be connected to iPass ports at the back side of cassettes. All panels fully conform to and provide a substantial margin above all ANSI/TIA-568-C.2 Category 5e, CENELEC EN 50173 and ISO/IEC-11801 (2nd Edition) requirements. The HCS Logo and the DataLink 100e Trademark ensure long lasting high-performance and full support of all relevant applications up to 1000BASE-T (Gigabit-Ethernet).

Uygulamalar

HCS DataLink 100e unshielded copper RJ-45 to iPass patch panels are used mainly in data-centers and telecommunications rooms and they fully support the following protocols

- 1000BASE-T (Gigabit-Ethernet)
- ATM 155
- TP-PMD
- 100BASE-T Fast Ethernet
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 and X.11

Nitelikler ve Onaylar

HCS DataLink 100e panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system. HCS DataLink 100e panels comply to the following standards:

Transmission	EMC	Safety
<input type="checkbox"/> ANSI/TIA-568-C.2	<input type="checkbox"/> EN-55022, Class B (Europe)	<input type="checkbox"/> UL94 V-0 plastic materials
<input type="checkbox"/> ISO/IEC-11801 (2nd Edition)	<input type="checkbox"/> FCC Part 15, Class A (USA)	<input type="checkbox"/> Zero-halogen in LSOH constructions.

Benefits & Features

- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Exceeding Category 5e performance - providing full support to Gigabit Ethernet.
- ✓ High quality metal casing - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

General Properties : Panel & Cassettes

Material of construction	Cold rolled steel, 1.5 mm thickness
Paint and standard color	Black, Powder paint finish or plastic front.
Storage temperature range	-40 to +70C
Operation conditions	-20 to +60C at 0-90% RH (Non condensing)
Packaging	One unit per box.

General Properties: Cassettes RJ-45 receptables

Housing material	Thermoplastic Rated UL94 V-0.
Jack spring contact coating	1.27µm (50µ-Inch) hard Gold over 2.54µm (100µ-Inch) Nickel plating
Plug Retention Force	49N minimum.
Plug to jack contact force	100 grams min. (using HCS approved plug).
Plug insertion durability	750 mating cycles

General Properties: Cassettes iPass receptables

Housing material	Zinc Alloy
Contact Material	Copper Alloy
Contact Plating	1.27µm (50µ-Inch) hard Gold over 2.54µm (100µ-Inch) Nickel plating
Insertion Force	60 N

General Properties – Distribution Cable Assembly

Conductor size	24AWG solid bare copper
MAX OD	12.7mm
Jacket	PVC or LSOH
Temperature range	-20 to +60C at 0-90% RH (Non condensing)
Flame Performance	Conforming to IEC 60332-1

General Properties – iPass Plug Connector

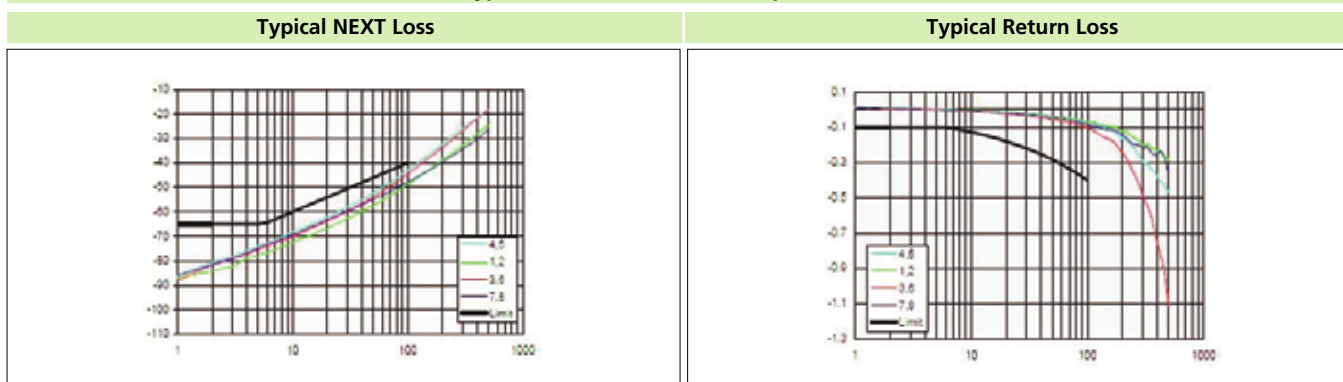

Housing	Zinc Alloy
Contact Material	FR4 PCB
Contact Pad Plating	PVC or LSOH
Insertion Force	1.27µm (50µ-Inch) hard Gold over 2.54µm (100µ-Inch) Nickel plating
Flame Performance	60 N

Category 6E Unshielded RJ-45 Copper Angled Patch Panels (Jacks)

Description

HCS DataLink 250E unshielded copper RJ-45 patch panel series includes high performance Enhanced Category 6 panels specially designed for structured premise cabling in local area networks (LANs). HCS DataLink 250E Angled Patch Panels are ideal for data-centers and installations of high density or which utilize extensive side and end-of-the-rack cable management. The angled feature provides enhanced port access and minimizes patch cord bend radius to the rack. The IDC section consists of V-shaped contacts that flex (not fatigue) when terminated. Each RJ45 port features a patented spring-loaded shutter and can be color coded to match jack outlets with the use of optional port icons. Offering both front and rear labeling options, the patch panel is constructed of cold-rolled steel for additional strength and durability. All panels fully conform to and provide a substantial margin above all ANSI/TIA/568-C.2 and ISO/IEC-11801 (2nd Edition) Category 6 component requirements, tested at the component level. The HCS Logo and the DataLink 250E Trademark ensure long lasting high-performance and full support of all relevant applications.

Applications

HCS DataLink 250E unshielded copper RJ-45 Angled patch panels are mainly used for horizontal distribution or equipment terminations in data-centers, dense telecommunications rooms and for interconnection terminations in consolidation points, and they fully support all relevant LAN applications, including the following protocols:

- 100BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T "Fast Ethernet"
- 100BASE-T2
- 100BASE-T4
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- ISDN Basic ve Primary Access
- 1BASE-5 Starlan
- Token Ring 4 Mbps ve 16 Mbps
- Broadband & Baseband Video
- ISALAN
- ITU V.21 ve X.11
- 100BASE-TX

Qualifications and Approvals

HCS DataLink 250E panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system. HCS DataLink 250 panels are tested at the component level and they comply to the following standards:

Transmission	EMC	Safety
<input type="checkbox"/> ANSI/TIA/568-C.2	<input type="checkbox"/> EN-55022, Class B (Europa)	<input type="checkbox"/> UL94 V-0 rated plastic materials
<input type="checkbox"/> ISO/IEC-11801	<input type="checkbox"/> FCC Part 15, Subpart J, Class A (US)	<input type="checkbox"/> Zero-halogen in LS0H constructions.

Benefits & Features

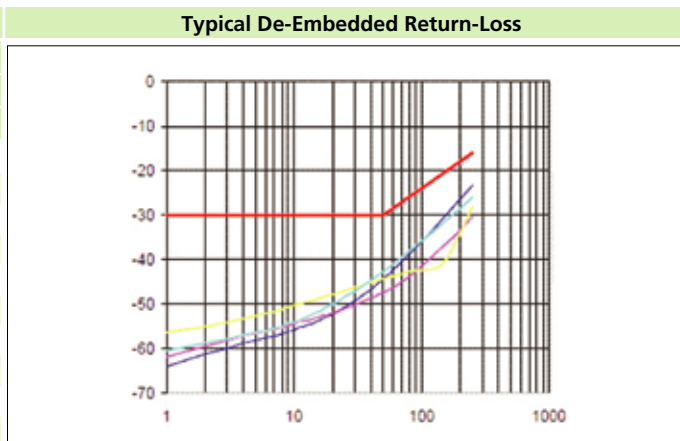

- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Exceeding Category 6 performance - providing full support to Gigabit Ethernet over Category 5e and Category 6 cabling systems.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs
- ✓ Compatible with 22-24 AWG solid conductors - providing support to a wider range of cabling types.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.
- ✓ Each port features the patented spring-loaded shutter prevents incomplete mating & protects from dust and contaminants.
- ✓ Patented IDC V-shaped contacts that flex (not fatigue) when terminated.
- ✓ Features pointed IDC towers to speed termination and enhance cable retention.
- ✓ Dual color-coding allows for 568 A/B wiring configuration.
- ✓ Front and rear port labeling (port sequence 1-48) as well as panel identification label.
- ✓ 4 x 6 ganged jack configuration.
- ✓ Individually removable patch panel ports.
- ✓ Removable cable management shelves ensure bend radius compliance.
- ✓ Can be terminated using industry standard punch-down tools.
- ✓ RJ45 port which is RJ-11 compatible.
- ✓ Molded category identification on each port face as well as optional port identification icons.

General Properties

Wire size range	22 to 24 AWG, Solid conductors.
Material of construction	CRS (Cold rolled steel), 1.5mm thickness.
Paint and standard color	Black or Grey.
Plastic parts	High impact, Flame-retardant plastic compound, UL 94 V-0.
Housing material - Jack & IDC	High impact FR plastic rated UL 94 V-0.
Jack spring contact	Phosphor Bronze with 50G" hard Gold over 100G" Nickel plating
Plug Retention Force	50N min.
Plug to jack contact force	100 grams min. (using HCS approved plug).
IDC terminations cycles	200 min.
IDC type	Gas tight
Plug insertion durability	750 mating cycles
Storage temperature range	-40 to +70C
Operation conditions	-20 to +60C at 0-90% RH (Non condensing)
Packaging	One unit per box.

Blank Keystone-Jack Copper Patch Panels

**Description**

HCS DataLink Blank RJ-45 Keystone-Jack Copper Patch Panels series includes high quality empty multi-port panels specially designed for structured premise cabling in local area networks (LANs).

HCS DataLink blank panels are available with plastic or metal frames, with up to 48 ports and with standard or staggered form.

The plastic-frame panels are recommended for use with unshielded jacks, while the metal-frame panels are recommended for use with shielded jacks, in order to provide continuous ground connection even when non-shielded cords are used.

The HCS Logo and the DataLink Trademark ensure long lasting high-performance and full compatibility with all HCS components.

Applications

Installation of copper cabling systems in horizontal or vertical environments.

Blank Keystone-Jack Copper Patch Panels

Benefits & Features

- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Integrated full installation accessories (supplied free of charge), including labels and icons, clip organizers and T-raps- providing a simple and elegant cable termination and identification.
- ✓ Optional plastic front panels - providing custom color selection.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Optional back-side cable management with clip organizer and trap connection - providing simple and easy cable handling.
- ✓ High quality metal casing - providing excellent EMC (Electro Magnetic Compatibility), minimizing radiation and maximizing noise immunity.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

General Properties

Augmented Category 6 Cable Assemblies

Description

HCS DataLink 500A cable assemblies consist of custom-made LS0H pre-terminated 100 Ohm 4-pair LAN cables bundled together, designed for fast and easy installation in data-centers and other high-density locations. Full conformance to TIA-568-C Category 6A and ISO/IEC 11801 Class EA is guaranteed by the selection of Category 6A officially verified components and by 100% testing of each permanent link inside the bundle prior to shipment. HCS DataLink 500A cable assemblies are bundled with special halogen-free and flame-retardant semi-loose sleeves providing limp and easy-to-bend, re-shapeable bundles, which are ideal for tight places and high-density locations. The bundles are marked on both sides with numbered labels for fast and easy identification. HCS DataLink 500A cable assemblies are available in shielded or unshielded versions, in lengths ranging from 5 to 90 meters and with Category 6A, Category 7 or Category 7A cables and are in full compliance with TIA-942, ISO/IEC 24764 and EN 50173-5. The standard cable jacket color is gray (RAL 7035) but other colors available upon request.

Applications

HCS DataLink 500A cable assemblies support all presently available LAN applications, including the following protocols:

- 10GBASE-T 10 Gigabit Ethernet
- 1000BASE-T 1 Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T "Fast Ethernet"
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Qualifications and Approvals

HCS DataLink 500A Cable assemblies are 100% tested and verified for full compliance with the following standards:

- Augmented Category 6 Permanent Link according to ANSI/TIA-568-C.2
- Class EA Permanent Link according to ISO/IEC-11801 (2nd Edition)
- Class EA Permanent Link according to CENELEC EN 50173.

Benefits & Features

- ✓ Testing every assembly prior to shipment -providing the highest degree of quality assurance.
- ✓ Custom-made designs -providing the exact assembly needed for every job and location.
- ✓ Unique LS0H sleeves -providing limp, easy to re-shape and install assemblies, ideal for data-centers.
- ✓ Exceptional material properties and cable design -providing the highest degree of reliability.
- ✓ High Return Loss and NEXT Loss values -providing low BER (Bit-Error-Rate) in all applications.
- ✓ Extremely high pair-balance and overall cable shield -providing excellent alien crosstalk loss and noise immunity.
- ✓ Revolutionary pair lay scheme -providing an extremely low delay skew.
- ✓ All Category 6A verified components -providing full backward compatibility and interoperability.
- ✓ 100% LS0H assemblies -providing safe usage in high-density and closed location.
- ✓ Unique DoubleSafe™ Quality Assurance Program providing lowest rejection rate available.

Physical and Mechanical Properties

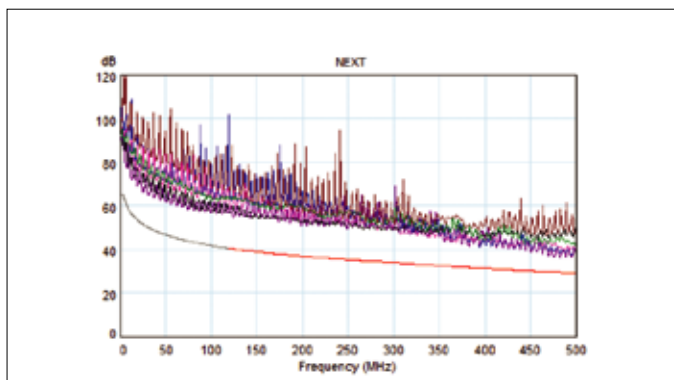

Horizontal CAT 6A, CAT 7 or CAT 7A cables terminated with shielded or unshielded keystone jacks conforming to IEC 60603-7-5.

Basic Cable Conductor	Solid bare annealed copper
Wire Insulation Polyolefin Number of insulated conductors	8, twisted in 4 pairs.
Outer Jacket	LS0H Halogen free flame retardant compound.
Standard Jacket Color	Light Gray RAL 7035. Other colors available upon request.
Standard Surface Marking	Includes HCS P/N, cable description, Meter mark and Batch Number.
Cable to jack tensile strength	1 Kgf (10N) min.
Pulling force	1 Kgf (10N) max.
Storage Temperature	-20 to +80C
Durability	750 mating cycles
Bend radius	8xD.
Temperature operating range	-20 to +60C
Flame Tests	IEC 60332-1 or IEC 60332-3-24 (flame), IEC 60754 (gas) & IEC 61034 (smoke)

Indoor/Outdoor Multi-Tight Distribution Fiber Optic Cables

Description

HCS DataLight series includes a complete line of Local Area Network (LAN) fiberoptic cables for high transmission rates including voice, data and video.

All HCS DataLight cables are produced and rigorously tested to conform to most international standards.

HCS DataLight Indoor/Outdoor Multi-Tight-Distribution (MTD) cable series provides the ultimate solution for all types of installations and application.

These cables consist of 4-72 buffered fibers, cabled, served with water-blocking swellable aramid yarns and jacketed with black, UV resistant LS0H compound.

HCS DataLight cables fully conform to and provide a substantial margin above all relevant TIA/EIA and IEC standards.

Optional fibers available: Multimode 50/125 microns (OM2, OM3 & OM4), 62.5/125 microns and Singlemode fibers.

Applications

HCS DataLight cables can be used for various application including the following:

- General purpose all-dielectric indoor LAN cable
- Distribution to Riser cabling - direct connectorization
- In-building backbone and riser, optimized for Centralized Cabling (TIA TSB-72)
- Short distance distribution and trunking
- Office wiring

HCS DataLight cables support all presently available LAN applications, including the IEEE802.3z protocols for Gigabit Ethernet, 1000BASE-SX (Short wavelength Gigabit Ethernet) 1000BASE-LX (Long wavelength Gigabit Ethernet) & IEEE 802.3ae 10GBASE-SR/SW 10GBASE-LX4 (10 Gigabit Ethernet).

Qualifications and Approvals

HCS DataLight Cables are tested and verified for full compliance with the following standards:

- | | |
|---|--|
| <input type="checkbox"/> ANSI/TIA/568-C.3 | <input type="checkbox"/> ISO/IEC 11801 (2nd Edition) |
| <input type="checkbox"/> IEC 60332-1 | <input type="checkbox"/> IEC 60754 |
| <input type="checkbox"/> CENELEC EN50173 | <input type="checkbox"/> IEC 60793 |
| <input type="checkbox"/> EIA/TIA-455 | <input type="checkbox"/> IEC 60794 |

Benefits & Features

- ✓ Exceptional material properties and cable design - providing a unique Century™ Lifetime Warranty.
- ✓ Tight or Semi-tight 900 microns buffered fibers - providing easy, fast and trouble-free termination and use of field-installable connectors.
- ✓ All-dielectric construction - providing perfect EMC (Electro Magnetic Compatibility) and total noise immunity.
- ✓ Halogen-free, flame retardant, UV and water resistant construction - providing a single cable suitable for all types of installations.
- ✓ Dry, jell-free longitudinal water blocking - providing easy and clean cable and fiber termination.
- ✓ Crisp and clear color coding - providing positive fiber identification and ease of termination.
- ✓ Descending sequential meter mark - providing easy stock and left-over handling.
- ✓ Smooth, limp and flexible jacket - providing easy and comfortable cable handling.
- ✓ Batch number printed every meter - providing fast retrieval of test results from data-base.
- ✓ A comprehensive product range - providing all state-of-the-art cable constructions.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Indoor/Outdoor Multi-Tight Distribution Fiber Optic Cables

Optional Constructions

HCS DataLight Indoor/Outdoor MTD Cables contain up to 72 color-coded, 0.9 mm tight or semi-tight buffer optical fibers. In 4-24 fiber cables, all fibers are cabled together, reinforced by water-blocking swellable aramid strength yarns and protected with a flame-retardant, UV resistant LSOH Jacket.

36 and 72-fiber cables are made of 6-fiber sub units. 48 fiber cables are made of 4-fiber sub-units.

The cables fully comply with the EIA/TIA FOTP 82B longitudinal water-blocking test.

Basic Fiber	As selected from the FIBER OPTIONS Section
Buffer type	Tight or Semi-tight
Buffer material	PVC or LSOH Halogen free compound or acrylic
Buffer OD	900 microns nom
Strength elements	Served swellable aramid yarns, providing longitudinal water blocking
Number of fibers	4-72
Color Code	HCS Color Table No. 3 (IEC 60304 Color Code)
Outer Jacket	LSOH Halogen free and flame retardant compound
Standard Outer Jacket Color	Black RAL 9005. Other colors available upon request
Standard Surface Marking	Includes HCS P/N, cable description, Meter mark and Batch Number
Max. Crush resistance	1000 N in 4-12 fiber cables. 3000 N in 24-72 fiber cables
Short Term Bend Radius	15xOD mm min.
Long Term Bend Radius	10xOD mm min.
Storage Temperature	-40 to +70 oC
Temperature operating range	-40 to +70 oC
Flame Test	UL 1581 VW-1 and IEC 60332-1.
Halogen content in LSOH cables	Null

Indoor/Outdoor Single Loose Tube Fiber Optic Cables

Description

HCS DataLight series includes a complete line of Local Area Network (LAN) fiberoptic cables for high transmission rates including voice, data and video.

All HCS DataLight cables are produced and rigorously tested to conform to most international standards.

HCS DataLight Indoor/Outdoor Single Loose Tube (SLT) cable series provides outstanding all-dielectric design for both indoor and outdoor installations in harsh conditions.

These cables consist of 2-12 color-coded bare fibers (250 microns OD), contained in a single jell-filled loose tube, overall served with water-blocking swellable aramid yarns or glass yarn and jacketed with black, UV resistant PE or LSOH compound.

HCS DataLight cables fully conform to and provide a substantial margin above all relevant TIA/EIA and IEC standards.

Optional fibers available: Multimode 50/125 microns (OM2, OM3 & OM4), 62.5/125 microns and Singlemode fibers.

Applications

HCS DataLight cables can be used for various application including the following:

- General purpose outdoor LAN cable
- Campus backbone cable
- Campus distribution cable

HCS DataLight cables support all presently available LAN applications, including the IEEE802.3z protocols for Gigabit Ethernet, 1000BASE-SX (Short wavelength Gigabit Ethernet) 1000BASE-LX (Long wavelength Gigabit Ethernet) & IEEE 802.3ae 10GBASE-SR/SW 10GBASE-LX4 (10 Gigabit Ethernet).

Indoor/Outdoor Dielectric Dry-Core Multi-Loose Tube FiberOptic Cables

**Description**

HCS DataLight series includes a complete line of Local Area Network (LAN) fiberoptic cables for high transmission rates including voice, data and video.

All HCS DataLight cables are produced and rigorously tested to conform to most international standards.

HCS DataLight Indoor/Outdoor Multi-Loose Tube (MLT) cable series provides outstanding all-dielectric design for indoor and outdoor installations in harsh conditions. These cables consist of 4-288 color-coded bare fibers (250 microns) in up to 24 jell-filled loose tubes.

The loose tubes are cabled concentrically around an all dielectric central strength member, water swellable yarns placed between tubes and tubes are wrapped with swellable tape and jacketed with black, UV resistant LSOH compound.

HCS DataLight cables fully conform to and provide a substantial margin above all relevant TIA/EIA and IEC standards.

Optional fibers available: Multimode 50/125 microns (OM2, OM3 & OM4), 62.5/125 microns and Singlemode fibers.

Applications

HCS DataLight cables can be used for various application including the following:

- Long haul outside plant telephone, CATV and data-transmission cable
- Direct burial and duct installation cable
- Campus distribution cable

HCS DataLight cables support all presently available LAN applications, including the IEEE802.3z protocols for Gigabit Ethernet, 1000BASE-SX (Short wavelength Gigabit Ethernet) 1000BASE-LX (Long wavelength Gigabit Ethernet) & IEEE 802.3ae 10GBASE-SR/SW 10GBASE-LX4 (10 Gigabit Ethernet).

Indoor/Outdoor Dielectric Dry-Core Multi-Loose Tube FiberOptic Cables

Cables Optional Constructions

HCS DataLight Outdoor MLT Cables contain up to 288 color-coded, 250 micron bare optical fibers.

4-12 color-coded bare fibers are contained in each jell-filled loose tube.

All loose tubes are cabled (with fillers as needed to preserve the cable geometry) around a solid, all dielectric central strength member and the water blocking yarns are placed between tubes.

The cable core is water blocking tape-wrapped and jacketed with black, UV resistant LS0H compound.

The cables fully comply with the EIA/TIA FOTP 82B and IEC 60794-1-F5 longitudinal water-blocking tests.

Basic Fiber :	As selected from the FIBER OPTIONS Section.
Buffer type:	None. (Bare, color-coded fibers).
Fibers OD:	250 microns nom.
Loose tubes:	1-24, filled with a Thixotropic gel.
Central strength member:	Rigid, all-dielectric FRP.
Number of fibers:	4-288.
Color Code inside each tube:	Color Table No. 4: ANSI/TIA/EIA-598-A Color Code)
Color Code of loose tubes:	Per request.
Core filling:	Dry, water blocking yarns.
Core wrap:	Water blocking tape, providing 100% coverage.
Outer Jacket:	LS0H compound.
Standard Outer Jacket Color :	Black RAL 9005. Other colors available upon request.
Standard Surface Marking :	Includes HCS P/N, cable description, Meter mark and Batch Number.
Max. Tensile Strength - Short term	2500 N.
Max. Tensile Strength - Long term	1300 N.
Min. Bending Radius - Short term	20xCable OD
Min. Bending Radius - Long term	10xCable OD
Repeated bending:	100 Cycles min.
Crush Resistance	2200 N
Storage Temperature :	-50 to +70C
Temperature operating range :	-40 to +70C

Fiber Optic Patch Cords and Pigtails

Description

HCS DataLight Patch Cords and Pigtails series provides a full range of high quality assemblies, supporting all state-of-the-art connectors types, including ST, SC, SC/APC FC, FC/APC, LC and MPO. Other types, such as SMA, FDDI, and VF-45 are available upon request. HCS DataLight Patch Cords and Pigtails are available with all fiber types including Singlemode 9/125 microns, Multimode 50/125 microns (OM2, OM3 and OM4) and Multimode 62.5/125 microns fibers in any length required. HCS DataLight Patch Cords and Pigtails are available with different buffer and jacket types and colors, including bare fibers (250 microns), tight buffers (900 microns) or jacketed minicables in Simplex or Duplex (Zip-cord) constructions. HCS DataLight Patch Cords and Pigtails can be custom-made with breakout or MTD cables in multi-fiber constructions. HCS DataLight Patch Cords and Pigtails comply with both major industry standards, ANSI/TIA/568-C.3 (Optical Fiber Cabling Components Standard) and IEC 60874 (Connectors for optical fibers and cables) and they are supported by the DoubleSafe™ QA program as a part of complete HCS cabling system.

Applications

- FiberOptic cross connect, patch panels, and distribution point connection.
- ODF connections.
- Fiber to the desk connection.
- Active FiberOptic equipment connection.

Qualifications and Approvals

HCS DataLight components are supported by the DoubleSafe™ QA program as a part of complete HCS cabling system and comply to ANSI/TIA/EIA-568-B.3 (Optical Fiber Cabling Components Standard) and IEC 60874 (Connectors for optical fibers and cables).

Benefits & Features

- ✓ Full compliance to industry standards - providing high quality components.
- ✓ Available with all major fiber types - providing a wide range of products.
- ✓ Available with all major connector types, including hybrid constructions - providing a wide range of products.
- ✓ Available in 12 different colors - providing a better compatibility and a wider selection range.
- ✓ Robust design - providing low rejection and replacement rates.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Fiberoptic Pre-Terminated 19" Patch Panels

Description

HCS DataLight Pre-Terminated Fiberoptic Patch Panel series provides a full range of pre-terminated fiber optic patch panels and fiber optic distribution points. HCS DataLight Pre-Terminated Fiber Optic Patch Panels accept 4 cassettes for the different front units. Each cassette consists of factory-terminated fiber optic patching in order to convert the MTP/MPO interface to a standard ST/FC/LC/SC/MT-RJ coupler. HCS DataLight Pre-Terminated Fiber Optic Patch Panels are ideal for mission-critical applications such as Data Centers and Storage Area Networks, where fast installation is a must and MACs are frequent. Factory-terminated optical cassettes ensure the best performance, promising true plug&play application. The robust cable management of the 1U Patch Panel enables up to 5 meters of extra cable to be stored within the panel for future move and change requirements. HCS DataLight patch panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling systems. The HCS Logo and the DataLight Trademark ensure long lasting high-performance and full support of all present and emerging applications

Applications

- Fiberoptic & copper distribution
- Fiber to desk applications
- Central Office equipment
- Data - Centers

Qualifications and Approvals

HCS DataLight panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling systems and comply with the following safety standards:

- ❑ UL94 V-0 rated plastic materials
- ❑ Zero-halogen in LSOH constructions.

Benefits & Features

- ✓ Interchangeable modular design for fiber connectors - Providing ultimate flexibility.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Integrated full installation accessories (supplied free of charge), including clip organizers and T-raps - providing a simple and elegant cable termination and identification.
- ✓ High density 1U 96 port design - providing a compact panel and economical space use.
- ✓ Pre-terminated cassettes - enables true plug&play performance.
- ✓ Top access into the panel - providing easy and comfortable cable management.
- ✓ Easy snap-in removable slack management accessories - providing simple and easy cable handling & storing up to 5 meters of ruggedized trunk ribbon Fiber Optic cable.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Optional back-side cable management with clip organizer and trap connection - providing simple and easy cable handling.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs.
- ✓ Modular and expandable comprehensive product range - providing up to 96 ports in a single panel.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Fiberoptic Pre-Terminated 19" Patch Panels

General Properties	
Material of construction	Steel, Aluminum, Aluminum Alloy or Anodized Aluminum.
Paint and Color	Powder paint finish, Black (Grey available upon request)
Connector Capacity	12-24-48 and 96 ports
Pre-terminated panel back connection	12/24 fiber ribbon cable terminated with MPO connector
Cassette capacity	4
Modular front plates	4
Insertion loss (max)	MM 50,62.5 and SM:0.90 dB/cassette. MM 50 OM3 and OM4 :0.75 dB/cassette.
Environmental conditions	-40 to +60C at 0-90% RH (Non condensing)
Packaging	One unit per box.
Storage Temperature	-20 to +80C
Non Halogen constructions	Available upon request.

MPO Cable Assemblies

Description

HCS DataLight MPO Assemblies series contain a full range of high quality assemblies factory terminated with MPO connectors. HCS DataLight MPO Assemblies are available with most fiber types including Singlemode 9/125 microns, Multimode 50/125 microns (OM2, OM3 and OM4) and Multimode 62.5/125 microns fibers in any length required. The assemblies are available with different cable types and colors, including bare ribbon cables, jacketed ribbon cables, ruggedized (trunk) ribbon cables and indoor MTD cables, with 12 fibers. HCS DataLight Patch Cords and Pigtails comply with both major industry standards, ANSI/TIA-568-C.3 (Optical Fiber Cabling Components Standard) and IEC 60874 (Connectors for optical fibers and cables) and they are supported by the DoubleSafe™ QA program as a part of complete HCS cabling system.

Applications

- Mission critical applications such as Data Centers and Storage Area Networks
- Applications where fast installation is paramount
- Environments where moves adds and changes are frequent or managed in-house
- FiberOptic cross connect, patch panels, and distribution point connection
- ODF connections
- Fiber to the desk connection
- Active FiberOptic equipment connection

Qualifications and Protocol Support

HCS DataLight components are supported by the DoubleSafe™ QA program as a part of complete HCS cabling system and comply to ANSI/TIA-568-C.3 (Optical Fiber Cabling Components Standard) and IEC 60874 (Connectors for optical fibers and cables).

HCS DataLight MPO Assemblies are designed to support a variety of high-speed network topologies including:

- IEEE 802.3 10G Base-SR/SW 10Gbps
- IEEE 802.3 10G Base-LX4 10Gbps
- Fiber Channel 400-M5-SN-1 4Gbps
- Fiber Channel 1200-M5E-SN1 10Gbps
- Fiber Channel FC-PH 1Gbps
- IEEE 802.3 1000 Base-SX/LX 1Gbps
- FDDI 100Mbps
- IEEE 802.3 FOIRL 10Mbps
- IEEE 802.3 10 Base-F 10Mbps
- ATM 155 Mbps, 622 Mbps, 1.2 Gbps & 2.4 Gbps

Benefits & Features

- ✓ Premium factory-controlled optical performance - enables flexible system configuration and fast installation.
- ✓ Low Smoke Zero Halogen allows for routing cables in any indoor environment
- ✓ Industry-leading low insertion loss (0.50dB max.)
- ✓ Each and every assembly pre-tested before shipment.
- ✓ Round, flexible outer jacket is easy to bend, route and install.
- ✓ Full compliance to industry standards - providing high quality components.
- ✓ Available with all major fiber types - providing a wide range of products.
- ✓ Robust design - ensuring long life and short replacement rates.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Phy-FiXX™ Managed Category 6 Unshielded RJ-45 Copper Patch Panels

Description

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

HCS Phy-FiXX™ Category 6 unshielded Patch Panels are used within the Phy-FiXX™ System. Each 1U 24 Port Patch Panel has one data bus connection port located on the rear of the panel. The data bus connection port connects the panel to the Phy-FiXX™ scanner via a standard RJ45 patch cord. The patch panel is used by the Phy-FiXX™ system to track connectivity in the patch zone and work area. LED status indicators on the panel show status of connectivity between the panel and the scanner and also provide panel guidance for work orders.

The IDC section of the Phy-FiXX™ Patch Panels consist of V-shaped contacts that flex not fatigue when terminated. Each port features a patented spring-loaded shutter. The patch panel works as a conventional patch panel when not connected to the Phy-FiXX™ system.

All Phy-FiXX™ patch panels fully conform to and provide a substantial margin above all ANSI/TIA-568-C.2 and ISO/IEC-11801 (2nd Edition) Category 6 component requirements.

The HCS Phy-FiXX™ Logo and the DataLink 250E Trademark ensure long lasting high-performance and full support of most present applications.

Application

HCS Phy-FiXX™ DataLink 250E unshielded copper RJ-45 patch panels are used within the Phy-FiXX™ System for horizontal distribution or equipment terminations in telecommunications rooms and for interconnection terminations in consolidation points, and they fully support the following protocols:

- 1GBASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T "Fast Ethernet"
- ITU V.21 ve X.11
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps and 16 Mbps
- Broadband and Baseband Video
- ISDN Basic and Primary Access
- 1BASE-5 Starlan
- ISALAN

Nitelikler ve Onaylar

HCS Phy-FiXX™ DataLink 250E panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system. HCS Phy-FiXX™ DataLink 250E panels are tested at the component level and they comply to the following standards:

Transmission

- ANSI/TIA-568-C.1
- ANSI/TIA-568-C.2
- ISO/IEC-11801

EMC

- EN-55022, Class B (Europe)
- FCC Part 15, Subpart J, Class A (USA)

Safety

- UL94 V-0 rated plastic materials
- Zero-halogen in LS0H constructions

Benefits & Features

- ✓ Two power status indicators to ensure proper connection of power supply from the scanner.
- ✓ Data bus connection to the Phy-FiXX™ Scanner done with an industry standard RJ45 patch cord.
- ✓ Category 6 field configurable for T568A or T568B wiring options.
- ✓ Integral cable management shelf ensures bend radius compliance.
- ✓ International hardware kit contains both ANSI and metric hardware.
- ✓ Can be terminated using industry standard punch-down tools.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Supplied with front labeling card index strip - providing simple and elegant port identification.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Exceeding Category 6 performance - providing full support to Gigabit Ethernet.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs.
- ✓ Compatible with 22-24 AWG solid conductors - providing support to a wider range of cabling types.

Connectivity Features

- ✓ LED status indicators on both the panel sides show status of connectivity between the panel and the scanner.
- ✓ LED status indicator on the panel calls for operator action (connect/disconnect patch-cord).
- ✓ LED status indicators on each port calls for operator action (connect/disconnect patch-cord).
- ✓ LED status indicators can be activated and deactivated from a remote location by the network supervisor.

General Properties

Wire size range	22-24 AWG, Solid.
Material of construction	CRS (cold rolled steel) 1.52 mm thickness.
Coating and color	Black Zinc.
Connector module holder	High impact, Flame-retardant plastic compound, UL 94 V-0.
Jack Housing material	Zinc Alloy plated bright Ni/Cu
IDC plastic housing	Polycarbonate UL94 V-0.
Jack contact material	Copper alloy plated with 1.25µm Gold over Nickel.
IDC contact material	Copper alloy plated with Matte Tin.
Plug Retention Force	6.8 Kgf (66 N) min.
Jack contact force	100 grams min.
IDC terminations cycles	20 min. using same-gauge wires.
IDC type	Gas tight
Jack insertion durability	750 mating cycles
Storage temperature range	-20 to +60C
Installation and operation conditions	0 to +50C at 0-90% RH (Non condensing)
Packaging	One unit per box.
Shipping weight	560 gr.

Phy-FiXX™ Managed Category 6A Shielded RJ-45 Copper Patch Panels

Description

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

HCS Phy-FiXX™ Category 6A shielded Patch Panels are used within the Phy-FiXX™ System. Each 1U 24 Port Patch Panel has one data bus connection port located on the rear of the panel. The data bus connection port connects the panel to the Phy-FiXX™ scanner via a standard RJ45 patch cord. The patch panel is used by the Phy-FiXX™ system to track connectivity in the patch zone and work area. LED status indicators on the panel show status of connectivity between the panel and the scanner and also provide panel guidance for work orders.

The IDC section of the Phy-FiXX™ Patch Panels consist of V-shaped contacts that flex not fatigue when terminated. Each port features a patented spring-loaded shutter. The patch panel works as a conventional patch panel when not connected to the Phy-FiXX™ system.

All Phy-FiXX™ patch panels fully conform to and provide a substantial margin above all ANSI/TIA-568-C.2 and ISO/IEC-11801 (2nd Edition) Category 6A component requirements. The HCS Phy-FiXX™ Logo and the DataLink 500A Trademark ensure long lasting high-performance and full support of most present applications.

Applications

HCS Phy-FiXX™ DataLink 500A shielded copper RJ-45 patch panels are used within the Phy-FiXX™ System for horizontal distribution or equipment terminations in telecommunications rooms and for interconnection terminations in consolidation points, and they fully support the following protocols:

- 1GBASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T "Fast Ethernet"
- ITU V.21 ve X.11
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps ve 16 Mbps
- Broadband ve Baseband Video
- ISDN Basic ve Primary Access
- 1BASE-5 Starlan
- ISALAN

Qualifications and Approvals

HCS Phy-FiXX™ DataLink 500A panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system. HCS Phy-FiXX™ DataLink 500A panels are tested as CAT6A/Class EA Channel and they comply to the following standards:

Transmission

- ANSI/TIA-568-C.1
- ANSI/TIA-568-C.2
- ISO/IEC-11801

EMC

- EN-55022, Class B (Europe)
- FCC Subpart F 68.5 (USA)

Safety

- UL94 V-0 dereceli plastik malzeme
- LS0H uygulamalarda 0 helojen

Benefits & Features

- ✓ Two power status indicators to ensure proper connection of power supply from the scanner.
- ✓ Data bus connection to the Phy-FiXX™ Scanner done with an industry standard RJ45 patch cord.
- ✓ Category 6A field configurable for T568A or T568B wiring options.
- ✓ Integral cable management shelf ensures bend radius compliance.
- ✓ International hardware kit contains both ANSI and metric hardware.
- ✓ Can be terminated using industry standard punch-down tools.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Supplied with front labeling card index strip - providing simple and elegant port identification.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Exceeding Category 6A performance - providing full support to Gigabit Ethernet.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs.
- ✓ Compatible with 22-24 AWG solid conductors - providing support to a wider range of cabling types.

Connectivity Features

- ✓ LED status indicators on both the panel sides show status of connectivity between the panel and the scanner.
- ✓ LED status indicator on the panel calls for operator action (connect/disconnect patch-cord).
- ✓ LED status indicators on each port calls for operator action (connect/disconnect patch-cord).
- ✓ LED status indicators can be activated and deactivated from a remote location by the network supervisor.

General Properties

Wire size range	22-24 AWG, Solid.
Material of construction	CRS (cold rolled steel) 1.52 mm thickness.
Coating and color	Black Powdercoat.
Connector module holder	High impact, Flame-retardant plastic compound, UL 94 V-0.
Jack Housing material	Zinc Alloy plated bright Ni/Cu
IDC plastic housing	Polycarbonate UL94 V-0.
Jack contact material	Copper alloy plated with 1.25µm Gold over Nickel.
IDC contact material	Copper alloy plated with Matte Tin.
Plug Retention Force	6.8 Kgf (66 N) min.
Jack contact force	100 grams min.
IDC terminations cycles	20 min. using same-gauge wires.
IDC type	Gas tight
Jack insertion durability	750 mating cycles
Storage temperature range	-20 to +60C
Installation and operation conditions	0 to +50C at 0-90% RH (Non condensing)
Packaging	One unit per box.
Shipping weight	840 gr.

Phy-FiXX™ Category 6 Unshielded RJ-45 Outlet Terminator.

**Description**

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

The Phy-FiXX™ Outlet Terminator is used at the work area outlet to allow the Phy-FiXX™ system to monitor the connection of the horizontal cable to the work area outlet. The Phy-FiXX™ Outlet Terminator is effectively a stuffer cap with in-built components that work exclusively in the HCS Phy-FiXX™ solution. It enables the Phy-FiXX™ system to determine circuit integrity to the work area outlet. Communications between the Phy-FiXX™ Outlet Terminator and the Phy-FiXX™ Scanner are transparent to the data channel and operate outside the Ethernet bandwidth. The Phy-FiXX™ system can function independently of the Phy-FiXX™ outlet terminator. However, the terminator provides enhanced functionality in terms of monitoring spare or unused channels.

Applications

HCS DataLink 250E Phy-FiXX™ terminator is entirely transparent to the data channels hence it supports all applications supported by HCS CAT 6 unshielded copper RJ-45 keystone jacks:

- 100BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T "Fast Ethernet"
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps ve 16 Mbps
- Broadband ve Baseband Video
- ISDN Basic ve Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Benefits & Features

- ✓ Confirms circuit integrity between the Phy-FiXX™ patch panel and the work area outlet.
- ✓ Enables monitoring of changes and detects the presence of devices at the outlet.
- ✓ Transparent to the Data Channel.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Electrical properties

Contact resistance	2.5 mOhm Insulation
Interface resistance	20 mOhm Initial
Voltage rating	72 Vdc max.
Insulation Resistance	100 MegaOhm min @ 500 Vdc

General Properties

Housing material	Flame-retardant thermoplastic compound, UL 94 V-0.
Contacts material	Phosphor Bronze plated with Tin matte with Nickel.
Contact force	60 gr min.
Operating life	Min. 20 re-terminations.
Environmental conditions	-20 to +50C at 0-90%RH (non condensing)
Standard Color	Transparent.

Phy-FiXX™ Category 6A Shielded RJ-45 Outlet Terminator.

Description

Phy-FiXX™, kurumların fiziksel katman altyapı sistemlerini sürekli olarak izleyebilme ve yönetebilmelerine imkân sağlayan, yapısal kablolama sistemleri endüstrisine eşsiz ve devrim niteliğinde bir yenilik getiren Fiziksel Katman Yönetim platformudur. Yazılım, elektronik ve yapısal kablolama ürünlerinin mükemmel kombinasyonu sayesinde Phy-FiXX™ kullanıcılarına altyapı yatırımlarını planlama aşamasından başlayarak tasarım, satınalma, kurulum, yer değiştirme & ekleme & çıkarma, ve güncelleme de dahil tüm aşamalarını takip etme ve yönetilme imkanı vermektedir. Phy-FiXX™ Priz Terminatörü, prize çekilmiş olan kablunun bağlantısını izleyebilmek için Phy-FiXX™ sisteminde kullanılmaktadır. Phy-FiXX™ Priz Terminatörü,

HCS Phy-FiXX™ sistemi için özel olarak tasarlanmış, üzerinde entegre bir devre barındıran pasif IDC toz kapağıdır. Phy-FiXX™ sisteminde kullanıcı tarafının durumunu izleme ve yönetimine yardımcı olur. Phy-FiXX™ Priz Terminatör ve Phy-FiXX™ Tarayıcı arasındaki haberleşme Ethernet bant genişliğinin dışında çalışmaktadır. Phy-FiXX™ sistemi, Phy-FiXX™ Priz Terminatörü olmadan da çalışabilir, ancak özellikle aktif olmayan (yedek olarak ilerde kullanılmak üzere çekilen) data uçlarının durumlarını takip etmekte önemli bir işlevsellik sunmaktadır.

Applications

HCS DataLink 500A Phy-FiXX™ terminator is entirely transparent to the data channels hence it supports all applications supported by HCS CAT 6A shielded copper RJ-45 keystone jacks:

- 10BASE-T 10 Gigabit Ethernet
- 100BASE-T Gigabit Ethernet
- ATM 155
- TP-PMD
- 100BASE-T "Fast Ethernet"
- 100BASE-T2
- 100BASE-T4
- 100BASE-TX
- Token Ring 100 Mbps
- ATM 52
- ATM 25
- 10BASE-T Ethernet
- Token Ring 4 Mbps ve 16 Mbps
- Broadband ve Baseband Video
- ISDN Basic ve Primary Access
- 1BASE-5 Starlan
- ISALAN
- ITU V.21 ve X.11

Benefits & Features

- ✓ Confirms circuit integrity between the Phy-FiXX™ patch panel and the work area outlet.
- ✓ Enables monitoring of changes and detects the presence of devices at the outlet.
- ✓ Transparent to the Data Channel.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Unique DoubleSafe™ Quality Assurance Program - providing lowest rejection rate available.

Phy-FiXX™ Managed 24-Port Duplex LC Fiber Patch Panels

**Description**

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

HCS Phy-FiXX™ 24-Port Duplex LC FO Patch Panels are used within the Phy-FiXX™ System. Each 1U 24 Port Patch Panel has one data bus connection port located on the rear of the panel. The data bus connection port connects the panel to the Phy-FiXX™ scanner via a standard RJ45 patch cord. The patch panel is used by the Phy-FiXX™ system to track connectivity in the patch zone and work area. LED status indicators on the panel show status of connectivity between the panel and the scanner and also provide panel guidance for work orders.

The adapter interface contains 24 duplex LC ports with Single Mode or Multimode options. The patch panel works as a conventional patch panel when not connected to the Phy-FiXX™ system.

All Phy-FiXX™ patch panels fully conform to and provide a substantial margin above all ANSI/TIA-568-C.3 and ISO/IEC-11801 (2nd Edition) FO component requirements.

The HCS Phy-FiXX™ Logo and the DataLight Trademark ensure long lasting high-performance and full support of most present applications.

Applications

HCS Phy-FiXX™ DataLight Duplex LC FO panels are used within the Phy-FiXX™ System for horizontal distribution or equipment terminations in telecommunications rooms and for interconnection terminations in consolidation points, and they fully support most presently available LAN applications, including the IEEE802.3z protocols for Gigabit Ethernet, 1000BASE-SX (Short wavelength Gigabit Ethernet) 1000BASE-LX (Long wavelength Gigabit Ethernet) & IEEE 802.3ae 10GBASE-SR/SW 10GBASE-LX4 (10 Gigabit Ethernet)

Qualifications and Approvals

HCS Phy-FiXX™ DataLight Duplex LC FO panels are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system.

HCS Phy-FiXX™ DataLight Duplex LC FO panels are tested at the component level and they comply to the following standards:

Transmission

- UL94 V-0 rated plastic materials
- ANSI/TIA-568-C
- ISO/IEC-11801

EMC

- FCC Subpart F 68.5

Safety

- UL94 V-0 rated plastic materials
- UL 1863 & CSA 22.2

Benefits & Features

- ✓ Two power status indicators to ensure proper connection of power supply from the scanner.
- ✓ Data bus connection to the Phy-FiXX™ Scanner done with an industry standard RJ45 patch cord.
- ✓ Panel options for Single Mode and Multimode fibers, including OS1, OS2, OM1, OM2, OM3 & OM4
- ✓ Integral slide-out cable management shelf ensures bend radius compliance.
- ✓ International hardware kit contains both ANSI and metric hardware.
- ✓ Recessed mounting provides adequate space for routing patch cords, even in free standing enclosures with the front door closed.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.
- ✓ Detailed installation manual in English and Turkish - providing clear and comprehensive instructions.
- ✓ Robust and installer-friendly design - providing reduced installation and operating costs.

Connectivity Features

- ✓ LED status indicators on both the panel sides show status of connectivity between the panel and the scanner.
- ✓ LED status indicator on the panel calls for operator action (connect/disconnect patch-cord).
- ✓ LED status indicators on each port calls for operator action (connect/disconnect patch-cord).
- ✓ LED status indicators can be activated and deactivated from a remote location by the network supervisor.

General Properties

Fiber options	Single Mode: OS1 & OS2. Multimode: OM1, OM2, OM3 & OM4
Material of construction	16 AWG cold rolled steel
Coating and color	Powder coating, black
Adapter shell material	Crastin SK602 NC010 (PBT 15% G.F)
Adapter shell color	Natural
Alignment sleeve	SM: Zirconia MM: Phosphor-Bronze
Number of terminated fibers	48 (24 Duplex LC)
Installation temperature	-40 to +75C
Operating temperature	-40 to +75C
Storage temperature	-40 to +75C
Packaging	One unit per box.
Shipping weight	650 gr.

Parts List (Each assembled panel includes the following)

- | | | |
|-----------------------------|------------------------------------|------------------------------|
| ✓ 1 x Cable gland 4-8mm M20 | ✓ 1 x Open grommet | ✓ Laser hazard warning label |
| ✓ 4 x Blanking grommet 20mm | ✓ 2 x Fiber support base and clips | ✓ Instruction sheet |
| ✓ 1 x Aramid retention post | ✓ International hardware kit | |

Phy-FiXX™ Fiber Optic Patch Cords

Description

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

HCS Phy-FiXX™ DataLight FO Patch Cords are used to connect Phy-FiXX™ FO panels within the Phy-FiXX™ System.

HCS Phy-FiXX™ FO Patch Cords incorporate a monitoring cable along with contact points on the cord connectors that activate the detection mechanism in the Phy-FiXX™ patch panel. When used with the rest of the Phy-FiXX™ system, these patch cords will provide connectivity information to the Phy-FiXX™ system.

All Phy-FiXX™ patch cords fully conform to and provide a substantial margin above all ANSI/TIA-568-C.3 and ISO/IEC-11801 (2nd Edition) FO component requirements.

The HCS Phy-FiXX™ Logo and the DataLight Trademark ensure long lasting high-performance and full support of most present applications.

Applications

HCS Phy-FiXX™ DataLight FO Patch Cords are used to connect Phy-FiXX FO panels within the Phy-FiXX™ System and they fully support most presently available LAN applications, including the IEEE802.3z protocols for Gigabit Ethernet, 1000BASE-SX (Short wavelength Gigabit Ethernet) 1000BASE-LX (Long wavelength Gigabit Ethernet) & IEEE 802.3ae 10GBASE-SR/SW 10GBASE-LX4 (10 Gigabit Ethernet).

Qualifications and Approvals

HCS Phy-FiXX™ DataLight FO Patch Cords are supported by the Century™ Lifetime Warranty and by the DoubleSafe™ QA program as a part of complete HCS cabling system.

HCS Phy-FiXX™ DataLight FO Patch Cords are tested at the component level and they comply to the following standards:

Transmission			Safety
<input type="checkbox"/> ANSI/TIA-568-C.3	<input type="checkbox"/> ICEA 596	<input type="checkbox"/> ISO/IEC-11801	<input type="checkbox"/> UL 1863

Belirleyici Özellikler

- ✓ Robust duplex housings protect fibers.
- ✓ Monitoring contact interfaces with Phy-FiXX™ FO Patch panel.
- ✓ All cords available with Single Mode and Multimode fibers, including OS1, OS2, OM1, OM2 & OM3
- ✓ All cords available with two fibers contained in a single outer jacket.
- ✓ All cords are jacketed with LSOH (Low Smoke Zero Halogen) flexible compound.
- ✓ Exceptional material properties and design - providing a unique Century™ Lifetime Warranty.

General Properties

Fiber options	Single Mode: OS1,OS2. Multimode: OM1, OM2, OM3 & OM4
Connector type	Duplex LC
Durability	200 Insertions min.
Cable OD	2.76 x 6.0 mm
Min. Bend radius	2.8 mm
Cable tensile strength	300N
Number of terminated fibers	2
Installation temperature	-20 to +50C
Operating temperature	-20 to +50C
Storage temperature	-50 to +80C
Packaging	One unit per box.

HCS Phy-FiXX™ 576 Channel Scanner

Description

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

Phy-FiXX™ scanners monitor activity on a Phy-FiXX™ enabled system. Each 1U scanner can be connected to up to 48 patch panels providing monitoring of up to 576 separate physical channels. Standard RJ45 patch cords are used as the data bus connection between scanners and patch cords.

Phy-FiXX™ scanners can be configured and activated independently of the software. When the Phy-FiXX™ application software is connected to the scanner, the scanner "discovers" active hardware and devices on the network and uploads this information onto the Phy-FiXX™ application software. Scanners monitor the connection state of Phy-FiXX™ channels and pass state change data to the Phy-FiXX™ application software. This triggers Phy-FiXX™'s smart polling function which queries the specific outlet and updates the software. In the event that the Phy-FiXX™ application cannot communicate with a scanner, the scanner records transactions in a queue for later delivery to the Phy-FiXX™ software. Scanners recover from power outages without requiring reconfiguration. Phy-FiXX™ scanners consume little power, which can be critical in power-hungry environments such as Data Centers.

Accessories

- Each scanner is supplied with one International 19-inch mounting kit.
- A standard IEC 60320 power cord (comprising a power plug and C13 Plug/outlet) is required but not included.

Standard conformance

Management	EMC	Safety
<input type="checkbox"/> HTTP <input type="checkbox"/> SNMP (read-only)	<input type="checkbox"/> EN-55022, Class B (Europe) <input type="checkbox"/> FCC Part 15, Class B (USA)	<input type="checkbox"/> UL 1950 <input type="checkbox"/> IEC 60950 <input type="checkbox"/> CSA 950

Benefits & Features

- ✓ Supports up to 48 patch panels and 576 separate physical channels.
- ✓ Smart polling enables continuous updating of Phy-FiXX™ with minimal impact to the network.
- ✓ Simple scanner configuration
- ✓ Auto discovery of active hardware/devices & automatic database population
- ✓ Mission critical port disconnection alerts
- ✓ Trace to device location
- ✓ High density scanner enables rack space to be maximized
- ✓ Low power consumption with no specific fans or cooling required
- ✓ Automatic Rediscovery/Re-synchronization after outage or system failure
- ✓ Transaction queues record events for later delivery if the scanner is disconnected from the Phy-FiXX application.
- ✓ Scanner can be tested and activated independently of software activation
- ✓ Data bus connection between the scanner and patch panel is via an industry standard RJ45 patch cord

Electrical & Power properties

Max. power consumption	30 Watts
Universal AC input	110-240VAC, 50-60Hz
Heat generated	12 BTU/Hour
Insulation Resistance	100 MegaOhm min @ 500 Vdc

General Properties

Material of construction	CRS (cold rolled steel) 1.52 mm thickness.
Coating and color	Black powder coated finish
Storage conditions	-10 to 60°C, 10 to 95% Relative Humidity non-condensing
Installation and operation conditions	0 to 50°C, 15-90% Relative Humidity non-condensing
Packaging	One unit per box.
Shipping weight	4 Kg

HCS Phy-FiXX™ Application Software & License

Description

Phy-FiXX™ is a revolutionary and advanced physical layer management suit providing enterprises with the ability to manage their Physical Layer infrastructure with a level of visibility & integration unique in the structured cabling industry. Using a combination of software, electronics and structured cabling products, Phy-FiXX™ enables users to track and manage their investment from planning through to design, procurement, installation, moves, adds and changes (MACs) and the eventual upgrade of the infrastructure, thereby spanning its entire lifecycle.

Phy-FiXX™ Software is the central data manager for the Phy-FiXX™ system. It manages OSI Layer 1 infrastructure elements and provides instantaneous information to the IT Manager about connectivity on Phy-FiXX™ enabled channels. The software documents planned work orders and detects unplanned (ad hoc) changes to the network. It allows continuous monitoring of the complete physical channel from work area outlet to the active network device. Phy-FiXX™ software automatically monitors all connections and disconnections, identifies and confirms port availability and notifies the IT Manager of all unscheduled or unauthorized network cabling changes. All moves, adds, and changes (MACs) detected on the network are automatically updated in the database. Phy-FiXX™ software is a web based application that enables global network access by an unlimited number of users and provides cost effective and accurate network management.

Phy-FiXX™ Reports allow the IT team to extract information contained in the Phy-FiXX™ system about the Layer 1 infrastructure and the assets connected to the infrastructure. Reports include information about assets, work orders, logs, MACs, and connectivity status of Phy-FiXX™ enabled channels.

Phy-FiXX™ 96 and 576 Channel Software Licences are used to enable activation of Phy-FiXX™ panels on Phy-FiXX™ scanners. Channel licenses are installed on the Phy-FiXX™ server. Each 96 Channel licence activates four scanner ports and each 576 Channel licence activates 24 scanner ports. 96 Channel licences are ideal for low density environments where the entire channel capacity of a scanner is not required. Multiple 96 channel licences may be installed on a scanner to provide a solution matching the number of channels served by a scanner. 96 channel licenses can be added incrementally as additional channels are connected to the scanner. Each scanner may have up to six 96 channels licenses or one 576 channel licences installed on it. 96 channel licenses may be added to a scanner at any time

Technical Information

Phy-FiXX™ Software is designed for Windows 32 bit and 64 bit environments and requires a TCP/IP network.

The following system requirements are recommended:

Server*:

Supported Operating Systems: Windows Server 2008 (US English version)

Windows Server 2008 R2 (US English version)

Server should meet Microsoft's recommended requirements

Database*:

Microsoft SQL Server Express 2008

Microsoft SQL Server Express 2008 R2

Browser Support*:

Microsoft Internet Explorer Version 7.0 or higher

Firefox Version 3.2 or higher

Chrome Version 5.0 or higher

Recommended screen resolution of 1200 x 800 or better

Microsoft Silverlight is required on the web browsing device.

One year technical support provided with initial software purchase (can be renewed on an annual basis).

* HCS recommends Windows Server 2008 R2 and SQL Server Express 2008 R2.

Benefits & Features

- ✓ Hierarchical view of entire enterprise layer 1 infrastructure
- ✓ Monitoring of all connections/disconnections
- ✓ Drag and drop work orders
- ✓ Work orders for end devices and wire closet patches
- ✓ Guided patching
- ✓ Search feature to easily locate assets and information
- ✓ Event logs for audit trails
- ✓ Assets linkage to building maps
- ✓ Enhanced graphics and mapping features, including Zoom, Pan, Scaling & Mini-map.
- ✓ Tracing feature across all channel elements
- ✓ Unrestricted number of users per license
- ✓ Data import and export capability

Fiber Optik Kablo Kanalları ve Aksesuarları

**Açıklama**

HCS DataLight Fiber Optik Kablo Kanalları ve Aksesuarları, Data Center'lerde kullanılmakta olan fiber optik kabloların kesintisiz veri iletişimi sağlamaları için zarar görmeden uzun yıllar boyunca performans göstermeleri için özel olarak tasarlanmıştır. Kanalların tamamen pürüzsüz yapısı ve fiber optik kabloların dönüş açılarına göre tasarlanmış dönüş aparatları sayesinde, fiber optik kabloların hasar görmesi engellenmiş olur. Kabinete inişler ve bağlantılar için sunulan özel aletler, kanal kesimlerinin ve eklerin çapaksız yapılabilmesini ve daha sonraki montajların risksiz yapılabilmesini mümkün kılar.

Uygulamalar

HCS DataLight Fiber Optik Kablo Kanalları ve Aksesuarları, zengin kanal seçenekleri ve aksesuarları ile Data Center uygulamalarında gerekli olan fiber optik kablo kanalı ihtiyacına cevap vermektedir.

Belirleyici Özellikler

- ✓ Zengin Kanal Seçenekleri – 50x50, 100x100, 220x100 ve 300x100 olmak üzere dört ayrı ölçüde kanal ve aksesuarları ile, düşük adetli kablolama ihtiyaçları için esnek kablo kanalları mevcuttur.
- ✓ Kolay montaj – Kablo kanalları basit bir testere yardımıyla kesilebilir, istenilen yerde ek yapılabilir.
- ✓ Hafif yapı – Data Center için minimum ilave yük getirir.
- ✓ Halojen free malzeme yapısı – Data Center yangın gereksinimlerine uygunluk sağlar.
- ✓ Geniş aksesuar alternatifleri – Köşe dönüş, T ek, düz ek, sonlandırma kapakları gibi birçok yardımcı aksesuar sayesinde montajın kusursuz yapılmasına olanak sağlar.

Genel Özellikler

Yapım malzemesi: Halojen-free PPO (Polyphenylene oxide) malzeme.

Çalışma Sıcaklığı: -40 / +60C 0-90% RH (yoğunlaşmayan)

Depolama Sıcaklığı: -20 / +80C

Standart Renk: Sarı RAL 1021.
