HCS Presentation at the BICSI Middle-East & Africa 2003 Conference

HCS, the only Turkish manufacturer of state-of-the-art LAN Cabling Systems, will keep its yearly tradition by participating and contributing to the BICSI Middle-East & Africa 2003 Conference in Dubai on 31 May to 1 June 2003.

This year the HCS presentation will be delivered by Mr. Ufuk Yilmaz, HCS Asst. General Manager (e-mail: yilmaz@hescs.com) and the topic will be **CATEGORY 6 Practical Aspects**.

Presentation abstract:

Category 6 standards (TIA/EIA-568-B.2-1, ISO/IEC 11801 and IEC 61156) are ratified and ready to use. Now we need to implement these papers into real life cabling systems.

Category 6 cabling systems are very different from Category 5e, requiring much more attention to all details and full adherence to all standard requirements.

This presentation provides some practical notes, that will help minimize the problems, solve problems that do occur, evaluate the network properly and prolong its useful life.

The HCS presentation will take place on Saturday, 31 May 2003 at 15:40.

During the conference we will be glad also to accommodate you at the HCS stand in the BICSI exhibition, which will be open to all the conference attendees before and after the educational sessions.

Don't miss this opportunity to obtain state-of-the-art technical information on Category 6 networks and other topics related to LAN cabling systems.

Detailed information on the conference program can be found at <http://www.megaevents.net/bicsi/programme.htm>

General information on the conference can be found at <http://www.megaevents.net/bicsi/exec-summary.htm>
